

NOTICE IS HEREBY POSTED

This is an announcement to all shooters, members and guests.

Effective immediately the SIG Sauer P320 platform, including all variants such as M17, M18, X5, AXG and any aftermarket configurations are strictly prohibited anywhere on VOMTC property.

This includes all ranges, parking areas and club facilities, regardless of whether they are in use or stored in a bag or vehicle.

This constitutes a TOTAL ban and applies to all activities hosted at VOMTC.

This policy was enacted by the Board of Directors out of caution, in response to credible reports of unintentional discharges associated with this platform, including a recent fatality.

Our priority is to ensure a safe environment for shooters, competitors, members and guests.

We appreciate your understanding and cooperation,
VOMTC Board of Directors.
