

Thank you for your enquiry,

Synergy Audio is a focused DJ & Public Address equipment rental-company with its roots firmly established in the music industry. As active, part-time musicians and sound technicians we have an in-depth knowledge of the technical side of things as well as a keen understanding of what music should sound like.

Our core business is providing musical entertainment at weddings or other celebratory functions. We are therefore very well equipped to handle this type of event. Whether it is an intimate affair in a restaurant with a limited number of guests or an everybody-is-there party bash in a barn or hangar, we're up to the challenge.

It is extremely important to use top quality sound equipment to ensure sonic fidelity. Our systems therefore are of the highest quality and especially tailored to perform optimally in small to medium sized open-plan venues. There is no denying however that the most important part of the evening is the time after the dance-floor is declared open. You can have all the equipment in the world but if the DJ does not play the right music the dance floor will remain empty – and your party over before you know it.

At Synergy Audio THIS is our main focus – to keep the guests entertained on the dance-floor whatever it takes. In order to achieve this you need to have an extensive knowledge of music (different genres, artists and song-titles) and even more importantly, a keen, almost instinctive, understanding of what song to play.

Getting it right when it matters most!!

1. SYNERGY AUDIO COMPREHENSIVE WEDDING PACKAGE

Our Comprehensive Wedding DJ Services & Sound Rental package is tailored to the specific requirements of your special day. The choice and size of the electronic equipment/speakers will be determined by the venue size, number of guests etc. In case of live entertainment we can supply the required mixing and sound reinforcement equipment for the performing artist at an extra cost.

A typical setup for a wedding ceremony, canapés and reception for up to 100 people consists of:

- **Sound System Reception:** 2 stand-mounted, powered speakers (800 Watt), 1 to 2 powered bass-bins (800 Watt), professional mixer & 1x wireless microphone. This system will adequately fill a small to medium-sized venue – 40 to 100 guests.
- **Sound System Ceremony:** 2 stand-mounted speakers (600 Watt), 1x wireless microphone and a music playback facility.
- **Canapés:** A small to medium powered speaker set up at the canapés area. This could be combined with a small set up (speaker and mixing desk) for a solo artist or band.
- **Lighting:** A lighting rig of multi-effect LED lights with laser effects, color-wash, strobe and ultra-violet (can be tailored to your personal preference).
- **Music:** Access to music tracks ranging from the 60 and 70's to the latest hits as well as special DJ club mixes of current chart toppers. Song requests from guests are very welcome. We supply couples with a wedding arrangement form on which they can fill in what songs they want us to play!
- **DJ:** The equipment will be delivered, installed and manned by one of our DJ's who have all undergone thorough product training and are capable of handling any situation. They have a keen musical understanding and will play the right music at the right time.
- **Cost:** Please enquire about cost - Dewald van Staden on 066 518 1587

- **General:** In summary - a totally flexible solution for all your audio/visual requirements. Satisfaction guaranteed!
- **Backup:** We have backup equipment of all the critical components such as: a duplicate audio device and speakers. We aim to give you a 100% trouble-free, fun-filled experience.
- **Consultation:** A pre-wedding consultation with the DJ (in person or via videocall) to discuss the day's logistics and proceedings is included in the package. This generally takes place a week or two prior to the event.
- **Live Music:** Musicians at ceremony, canapés or reception can be arranged with the dedicated person responsible for your wedding. Technical assistance or the more technical set-up of sound equipment for musicians and / or beach weddings will have an extra cost depending on the size and technicality of the set-up / artist / band.

2. SYNERGY AUDIO EXCLUSIVE WEDDING PACKAGE

With our Exclusive Wedding DJ Services & Sound Rental package you can expect our best in electronic equipment/speakers. Portable, wireless, battery-operated systems for forest or beach-weddings are available and we also offer projection solutions for video clip or slide-show playback at no extra cost. In case of live entertainment we can supply the required mixing and sound reinforcement equipment for the performing artist at no extra cost. We could even assist a band/solo artist with their sound to secure the best possible end-result.

A bigger setup for a wedding ceremony, canapés and reception for more than 100 people consists of:

- **Professional DJ Software:** A dedicated DJ who plays on a either Rekordbox or VirtualDJ, allowing seamless transitions between songs you choose!
- **Sound System Reception:** 2 stand-mounted, powered speakers, 2 powered bass-bins (1600 Watt), professional mixer & 2x wireless microphones. This system will adequately fill a medium to bigger-sized venue – 100 to 200 guests. ***Smoke machine included!***
- **Sound System Ceremony:** 2 stand-mounted speakers (600 Watt), 2x wireless microphones and a music playback facility. The exclusive package also includes a recording of your ceremony speeches at **no extra cost.** (please give us a head's up if you need this service)
- **Canapés:** A small to medium powered speaker set up at the canapés area. This could be combined with a small set up (speaker and mixing desk) for a solo artist or band at **no extra cost.**
- **Lighting:** 2x lighting rigs of multi-effect LED lights with laser effects, color-wash, strobe and ultra-violet (can be tailored to your personal preference).
- **Music:** Access to music tracks ranging from the 60 and 70's to the latest hits as well as special DJ club mixes of current chart toppers. Song requests from guests are very welcome. We supply couples with a wedding arrangement form on which they can fill in what songs they want us to play!
- **DJ and his assistant:** The equipment will be delivered, installed and manned by two of our DJ's who have all undergone thorough product training and are capable of handling any situation. They have a keen musical understanding and will play the right music at the right time.
- **Cost:** *Please enquire about cost - Dewald van Staden on 066 518 1587*
- **General:** In summary - a totally flexible solution for all your audio/visual requirements. Satisfaction guaranteed!
- **Backup:** We have backup equipment of all the critical components such as: a duplicate audio device and speakers. We aim to give you a 100% trouble-free, fun-filled experience.
- **Consultation:** A pre-wedding consultation with the DJ to discuss the day's logistics and proceedings in person is included in the package. This generally takes place a week or two prior to the event.
- **Live Music:** Musicians at ceremony, canapés or reception can be arranged with the dedicated person responsible for your wedding. Technical assistance or the more technical set-up of sound equipment for musicians and / or beach weddings will have **no extra cost** and is included with the exclusive package.
