

## RULES AND REQUIREMENTS

### **SMALL DOGS ONLY**

Small breed Dogs must be under 35 pounds.

### **YOU MUST STAY WITH YOUR DOG**

Please do not leave your dog unattended. It is required that you stay with your dog on the premises at all times.

### **DOG BEHAVIOR - SEVERE AGGRESSION**

Severe Aggressive behavior is not allowed. Dogs that bully, bites, attacks, excessive pouncing, or tries to cause harm to other dogs is considered a Severe Aggressive dog. We recommend behavioral training to assist your dog to play and adjust positively to other dogs before attending any of our small dog social events.

### **THE DIFFERENCE BETWEEN BEHAVIORAL TRAINING AND SOCIALIZATION**

**Behavioral Training** is geared towards unwinding years of behavioral issues within your dog. This is ideal for rehabilitating dogs that have aggression or other behavioral issues that require a sort of “rewiring” of the brain to unlearn bad habits.

**Socialization** is the process of preparing a dog to enjoy interactions and be comfortable with other animals, people, places and activities.

### **SPAY AND NEUTER**

Dogs that are **not** spayed or neutered have a tendency to be aggressive towards other dogs to show their dominance. This creates dog fights and potential serious safety issues.

It is required that your dog(s) are spayed and neutered before attending the events.

### **DOG VACCINATIONS**

For the safety of our dogs, it is required that your dog, is current on ALL of their general series of vaccinations according to your veterinarian recommendations.

### **DOG ILLNESSES**

If your dog has cold symptoms, sneezing, runny nose, watery eyes, or frothing of the mouth, please do not bring your dog to the meeting. Please seek a veterinarian before attending a meeting to assure your dog is in good health.

### **TICKS & FLEAS**

To help reduce the spread of Fleas and Ticks to other dogs, it is required that your dog is given tick and flea control preventative before attending the meeting to prevent the spread of fleas, ticks, and potential Lyme disease brought on from ticks.

### **DOG POO CLEAN UP**

It is required that we keep the dog park grounds clean of dog poo to prevent spreading a parasite called Giardia. Giardia is an intestinal parasite that is found in stool that is highly contagious to dogs and humans. Please pick up your dog’s poo immediately. We supply Poo Bags for you to use, so please be courteous of others. (No one likes to step in dog poo).
