

soundflare

micro speaker with beat driven lights

No ordinary speaker soundflare has turned ocean bound plastic into a premium micro speaker with a difference. The whole base of the speaker lights up and sync to the beat creating a portable disco. The free optional App allows you full control of the settings allowing countless configurations to play with, you can also control the sound and adjust the EQ to your liking making your own portable DJ, and if that wasn't enough you can use the speaker as a remote to your Phone camera to set up the perfect Selfie shot!

further enhance your experience by downloading the Free
"BOOMPODS" App, go to the App store.
