

INTEGRATED DATA CONSULTING PARTNERS WITH STRATEGY 7 TO EXPAND INFORMIX PROFESSIONAL SERVICES AND SUPPORT

Remains Committed to IBM Data Management Products with  An Affinity for INFORMIX 

For Immediate Release  July 28th, 2008—STREAMWOOD, IL / NEWPORT BEACH

Integrated Data Consulting, a group of experienced Informix consultants with over 18 years of Informix experience and Strategy 7 Corporation, a value added reseller with over 17 years of INFORMIX and IBM Data Management experience, has entered into an expanded professional services agreement.

Integrated Data Consulting is a group of “performance-tuning veterans” with a wealth of Informix knowledge. Providing database administration with expertise in setup, tuning and system upgrade implementation, Integrated Consulting provides custom-tailored INFORMIX consulting solutions.

Strategy 7 has worked extensively in the field of enterprise-wide development in data management and migration with a strong commitment to INFORMIX. The company believes that the long-standing database platform continues to remain a viable foundation for many businesses and can readily support existing, and newly introduced, Web 2.0 applications.

Under the INFORMIX Professional services agreement, customers will benefit from the depth of experience and combined expertise of the companies technical consultants and long histories with IBM and INFORMIX.

Providing services to support Informix Database Servers from initial setup, Integrated Data Consulting and Strategy 7 services include performance tuning, backup and recovery, remote assistance and Database modeling.

The companies architect customized solutions including--implementing new systems, staff supplementation, on-site/remote services, database design, ERD modeling as well as, layout and performance tuning.

A “Health Check” designed to analyze the customer’s Informix Database Systems is performed that includes: Database Configuration, OS Configuration, Problem Areas, Table/Index layouts, Backup/Recovery, Database Consistency, CPU and Memory Usage. In addition, regularly scheduled maintenance and tuning updates are performed.

Integrated Data Consulting Since 2001 with headquarters in Streamwood, IL has helped many companies small and large in implementing their Informix solutions to meet their business needs.
