## President's Message ~ Pam Scholey

I love this time of year. I am in my happy zone while doing a thorough cleanup and/or repotting of all my orchids. If you are a little nervous about your repotting skills, don't miss our next meeting. Our favorite repotting experts (Jamie and John) will be there to give you the confidence you need. Simply bring the plant you wish to repot, along with your planting supplies, and you will be a repotting expert by the time you leave.

I hope you are all as excited as I am. Our annual picnic is June 10th. It is a great time to get together, get to know each other a little better, and swap "orchid stories." We get to play some fun games, win prizes, and bid on orchids. I know, I know, you tell yourself you are not going to take any more orchids home. Who can resist bidding on a silent auction? I know I can't! Bring your own lunch or pay \$5.00 for a sandwich from Jimmy Johns. A fun time will be had by all!

I hope you are all having a wonderful spring!

## News from the 1st Vice President Andrea Heitfeld

Happy spring to all!

I hope everyone is looking forward to our repotting class at our next meeting on April 12th.

Those of you who bought the bio carbon fertilizer please report back to us on the results you're getting with the fertilizer. If anyone wants to order the product, just let me know.

Our picnic will be on May 10th, and I am looking forward to seeing everyone there.

Vero Beach has their Orchid show on April 23rd and 24th. Please, we need orchids to put in our display. We will take your orchids there as long as you can drop them off at the Botanical Gardens on April 22nd at 9 am. Contact me with any questions 772-528-1955.

# MEETINGS, EVENTS, AND SHOWS

## PSLOS April Meeting - April 12, 2022 - 12:00 Noon

**NOTE:** Because of Covid concerns, members are requested to wear masks. Also, we will not be serving lunch, but you may bring a snack if you wish. We will be offering bottled water.

### Repotting Orchids with Confidence

In response to requests from members, the April meeting will be a repotting session for members. To assure that there is sufficient time to repot orchids, the Repotting Orchids with Confidence meeting will start at 12:00 noon. (There will be no 12:00 noon class.)

- A short business meeting will be conducted first in the Pavilion (starting at 12:00 noon).
- John Erickson, our guest speaker, will then go over the steps for repotting orchids.
- After which, members will go outside to one of the stations set up on the veranda around the Pavilion building and start repotting!
- Experienced members will be available to assist and answer questions. Additionally, since approximately four members will be working at each station, you will be able to help one another.

Bring the following items to the meeting:

- Plants you want to repot
- Clean re-potting pot(s)
- Fresh, moist soil-less medium, pot clips, and plant labels
- Spray bottle of 3 percent hydrogen peroxide and another with 50/50 solution of 70 percent alcohol (add a few drops of dawn liquid as a spreader)
- Cinnamon
- Two small 2 gallon pails (to mix medium and for water)
- Long thin knife if you need to cut a plant out of the pot
- Rectangular container example (24"x16"x6") to use as your work area

---

To allow maximum time for repotting, there will be:

- No orchid raffle
- No orchid exchange
- No show and tell

#### PSLOS MEETINGS AND EVENTS

**May 10, 2022**  
Annual Awards Retreat

# MEETINGS, EVENTS, & SHOWS

## PSLOS ORCHID DISPLAY

for the Vero Beach Orchid Society Show

Members, we need a lot of help and a lot of orchids to have a great PSLOS display.

### Thursday, April 21

If you have orchids for judging, email Andrea Heitfeld (tazzette55@gmail.com) the following info: name, color, size of Cattleya (over or under 5”), and size of Phalaenopsis (over or under 2”).

### Friday, April 22

Bring your orchids by 10:00 am to the Riverside Park, Vero Beach, FL.

OR

If you want us to take your orchids to the show, bring them to the PSL Botanical Gardens by 9:00 am.

### Sunday, April 24

Meet at 4:00 p.m. to help break down the exhibit and pick up your orchids. If you need us to deliver the orchids back to the Gardens, please let us know.

If you have questions, please email me at [tazzette55@gmail.com](mailto:tazzette55@gmail.com).

**PSLOS**

**It's Picnic Time! Annual retreat**  
**At Veteran's Memorial Park Rivergate**  
**On May 10, 2022 Noon to 3 P. M.**  
**Admission \$5.00 must be paid at April 12th meeting**  
**Includes mini subs from Jimmy John's and two raffle tickets**  
**Lots of fun activities including the annual silent auction and corn hole game**  
**Chips, drinks and dessert will be provided**

A poster for the PSLOS Annual retreat. The background is decorated with pink lilies and colorful butterflies. A small photo shows a group of people at a picnic. The text provides details about the event, including the date, time, location, admission fee, and activities.

NOTE: If you prefer to bring your own lunch, admission is only \$3.00 which entitles you to chips, drinks, dessert, and two raffle tickets.

Wasn't Jamie's shirt just the greatest?

If you would like a shirt with the PSLOS design, our design is available at Burns Embroidery.

Take in your own shirt or select a shirt from the many that Burns has in inventory.

# MARCH PSLOS MEETING

Another very informative meeting!

In the noon workshop, Jamie talked about viruses to include demonstrating virus tests on two orchids. Result of tests: one good and one not so good!

Our speaker, David Disbrow from Universal BioCarbon explained how BioCarbon Orchid fertilizer makes a difference in orchid blooming power — to a large extent because it is made from 100% organic vegetation and is carbon pure.

John explained the set up for the Repotting Workshop that will be our April meeting. It's going to be fun!

Wow! Look at this beautiful Jewel Orchid! Maureen got this orchid as a little baby in the Orchid Exchange. Look how it has grown up!

Pam thanked and recognized John and Andrea for the fantastic job they did in organizing our Orchid Village Show! It was a wonderful show!

## Show and Tell!

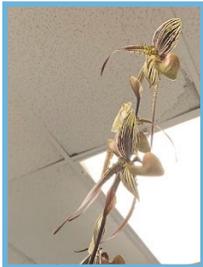

Beautiful orchids and their proud mamas and papa!

# TAKING CARE OF BUSINESS

## Membership Corner

Membership Chairperson  
Anne Menassian  
Pslosmember@gmail.com  
P.O. Box 8421  
Port St. Lucie, FL 34985

Hello PSLOS Members,

March 1 marks the day every year that we have a firm count on our membership—the show is over and the deadline for existing members to pay dues is past, the member rolls have been reconciled and we have a final count.

Our membership as of March 1, 2022 was 116 members. As wonderful as the addition of 22 new members in the month of February was, we had 5 more new members join at the March meeting for a new total of 121. Please welcome the new members:

Fay and Tony Zazzi  
Kate Bear and Murdell Johnson  
Amanda Dier

It is important for all of us to reach out and try to make everyone in the group feel part of the whole society. Volunteering is a great way to meet and interact with other members.

Hope to meet all of you at the April 12<sup>th</sup> meeting.

## Treasurer's Report

Laurie Wade  
Treasurer

Happy Spring everyone!

As of March 25, our account balance is \$9,997.54.

We received a \$50 donation from Diane Bryant, earmarked for our orchid room at the Botanical Gardens. We received \$154 in dues, \$380 from the JB Garden Club event, and \$67 profit from our March meeting orchid raffle.

Our expenses include \$75 to purchase orchids for our meeting raffle, \$149 for new member welcome bags, and \$64 for the orchid room.

## Info Regarding Virus Testing from Member Amanda Dier-Huth

A lot of people were asking this last meeting [March] on where to get the virus test kits. You have two options:

Agdia sells them in boxes of 25 for \$151:  
<https://orders.agdia.com/immunostrip-for-cymmv-and-orsv>.

Rega Biotech sells them in boxes of 50 for \$200:  
<https://regabio.en.taiwantrade.com/product/2418748>

Rega is the cheaper option, but they do take longer to ship and get to you since it's coming from Taiwan.

Both companies are very good at what they do, it really just depends on how pressing your need to test is. (Rega's price drops to \$150 per box if you need 51 or more boxes, so if anyone really wants to make a bulk buy, their prices are even better.)

# ORCHID CULTURE & CARE

## Tasks for April

April Climate Data  
Average high: 83.8  
Average low: 67.6  
Average mean: 75.7  
Average rainfall: 3.36"

- Water heavily when you water; then dry hard.
- Fertilizer becomes more crucially important. Apply:
  - 13-13-13 time release (Dynamite more reliable);
  - 15-15-15 at a rate of 2 tsp per gallon every 2 weeks; and
  - fertilizer high in phosphorus once or twice.
- Treat plants for thrips and mites.
- Catch up with all your repotting this month.

*From Dr Martin Motes' monthly newsletter and book, Florida Orchid Growing Month by Month*

For further information specific to different orchid genera:  
<https://www.aos.org/orchids/seasonal-orchid-care/march-april-checklist.aspx>

# ORCHID CULTURE & CARE

## Orchid-abulary

Brought to you by  
Nan Rothschild  
2nd Vice President

This month's words were inspired by our March guest speaker.

**Carbon neutral** - making no net release of carbon dioxide to the atmosphere.

**Carbon negative** - the reduction of an entity's carbon footprint to less than neutral so that the entity has a net effect of removing carbon dioxide from the atmosphere rather than adding to it.

**Micron sized particles** - One micron is 1/1000 mm (1/25,000 inch). Airborne particles are usually described in microns. The human eye can see debris or dust particles that are approximately 25 microns in size. The average human hair is 70 microns in diameter.

**Hygroscopic** - readily taking up and retaining moisture

Sample label on Peters Excel 15-5-15 Cal-Mag:

**GUARANTEED ANALYSIS:**

Total Nitrogen (N) .....	15.0%	Magnesium (Mg) .....	2.0%
1.1% Ammoniacal Nitrogen		Boron (B) .....	0.0187%
11.8% Nitrate Nitrogen		Copper (Cu) .....	0.0187%
2.1% Urea Nitrogen		Iron (Fe) .....	0.75%
Available Phosphate (P2O5) ..	5.0%	Manganese (Mn) .....	0.0375%
Soluble Potash (K2O) .....	15.0%	Molybdenum (Mo) .....	0.0075%
Calcium (Ca) .....	5.0%	Zinc (Zn) .....	0.0375%

**Macronutrients** - are essential for plant growth and health. The primary macronutrients are nitrogen, phosphorus, and potassium; others include: calcium, sulfur, magnesium, carbon, oxygen and hydrogen.

**Micronutrients** - trace minerals necessary for plant growth and health including iron, boron, chlorine, manganese, zinc, copper, molybdenum, nickel.

Sometimes fertilizers list the nitrogen, phosphorus, and potassium as macronutrients and the others as micronutrients.

And one word to look ahead:

**Kokedama** - "Koke" means moss and "dama" means ball in Japanese. It is a form of Japanese garden art that is centuries old and related to bonsai. A moss ball is the focal and supporting point for a plant. It is fixed to a platform or suspended from a string with the plant growing out from the sphere. Check it out in our Orchid Room!

# PSL BOTANICAL GARDENS - BLOOMING IN THE ORCHID ROOM

Have you visited our Orchid Room lately? There are lots of great changes thanks to the efforts of the volunteers who maintain the Orchid Room.

Volunteers are always needed to help with chores in the Orchid Room on Monday mornings from about 8-9 a.m. Tasks include watering and general maintenance such as raking leaves and pine needles. If interested, please contact: Jessica Benford at [jessica10chb@gmail.com](mailto:jessica10chb@gmail.com).

New additions for mounting our orchids. A special thanks to Andrea and hubby Pierre for the lattice! Doesn't it look great as an orchid display!

Maintenance also means repotting. Thanks to our Orchid Room caretakers.

Creating Kokedamas for displaying our orchids.

Thanks to all our volunteers who help make our Orchid Room look great!

One of the founders of the Orchid Room  
Vivian (Robbie) Robinson

WE LOVE OUR ORCHIDS—FROM OUR MEMBERS' GARDENS!
