Todd Templeton is coordinating a date for our members to visit the facility located near the American Airlines Museum. Suggested that the tour would last around 2 hours and be scheduled around mid morning or mid afternoon during the week. Todd will initiate the application request. The time frame for FAA confirmation for a tour is pending currently. Attendees could be members and guests.

The Blue Angels will be performing at NAS Joint Reserve Base Worth on April 13-14. In the past shows, the guest of the Blue Angels has reserved seating near the flight line. There may be an opportunity for John Miller to request tickets for our members in the reserved seating area.
