The HKS colour system is based on the euroscale colourspace. It follows the guidelines of ISO 12647:2 2002 and the FOGRA Standards (such as Fogra27L).^[2] This means HKS colours are available on all paper types of the 12647 standard. This makes it easier to print the colours in offset and common digital printing technologies.

2022 rule changes

The goal to reach a certain number of points has been demoted and replaced with the one commonly used by most players, which is to be the first player to go out. If played for points, each Wild card is worth 50 points regardless of type. There is no longer an official method to determine the dealer. In addition, if the first card flipped at the start of a game is an Action or Wild card, it is ignored and another card is flipped until a number card comes up.^[8]
