Dahua N41C2P Lite-Series 4K 8-Channel PoE NVR with Smart H.265+, 2TB HDD \$379
Dahua N41C2P Lite-Series 4K 8-Channel PoE NVR with Smart H.265+, 2TB HDD

Benefits

The Active Deterrence camera can warn off intruders in time. When alarm is triggered, its built-in spotlight will flash and its speaker will play an alarm sound at the same time. Also, it supports custom voice audio created by the user (e.g., "Private property, keep out! ").

Accurate Detection-Based on deep-learning algorithm, it can filter alarms triggered by irrelevant objects, and only focus on human and vehicle targets. The false alarm rate is less than 1%.

Quick Target search-Human and vehicle options are available for quick event search via NVR or XVR, significantly improving 98% of target search efficiency.

Two-way Talk

When connected to the DMSS App, the camera can send push notifications to mobile phone. With built-in speaker and mic, users can talk to people in front of the camera.
