

**Report from Mark West for year ending 30th September 2023**  
**IWCB head of Finance**

The Isle of Wight Cricket Board continue to show a healthy financial position and demonstrate robust financial management.

For the year ending 30 September 2023 the accounts show a profit of £23k due in the main to having periods of unfilled vacancies and absences.

As at 30 September 2023 the Board had retained profits amounting to £169k and cash at bank of £162k.

During 23/24 the plan is to use some of the retained profits to drive improvements around Safeguarding and Equality, Diversity & Inclusion.
