

LexMar Selects Steve Delity as New CEO

Haverhill, MA— (March 1, 2016)— LexMar Global, Inc., a manufacturer of process control equipment in the chemical and mining industries recently announced the selection of Steve Delity as LexMar Global's new Chief Executive Officer effective March 1, 2016. Delity will succeed Stephen Garrow and David Vogel, the company's principal owners who will remain on the Board of Directors and will actively support the company during this leadership transition.

"We are delighted to welcome Steve Delity to LexMar Global. He brings a wealth of experience and success in building and executing growth strategies in industrial markets. He will be a key driver in our effort to provide unique and impactful solutions that improve manufacturing process control and product quality for our growing base of customers," said David Vogel, Chairman of the Board of Directors and former COO.

"I can think of no one better to lead LexMar Global. Steve's experience in identifying customer needs, leading product development programs, and successfully launching new products while growing profitable global industrial product and service businesses make him the perfect choice to lead LexMar," said Stephen Garrow, LexMar Board Member and former CEO.

"Steve brings unique perspectives on how to best serve and partner with our global polyolefin and mining customers," said Scott Marino, President and Co-Founder. "I am excited to work with Steve as we make significant investments to refresh and expand our technical solutions."

Delity previously served as the President and CEO of Rapid Micro Biosystems. Other prior roles for Delity include: Vice President, for PerkinElmer's worldwide BioAnalytical Solutions business; management consultant at McKinsey & Company; engineer for the M.W. Kellogg Company; Officer in the U.S. Army. Steve holds a BS in Mechanical Engineering from the United States Military Academy at West Point, an MS in Systems Management from Golden Gate University and an MBA from the Harvard Business School.
