

## **Definition**

Polyvinyl chloride thermoplastic waterproofing membrane.

## **Types**

- Reinforced
- Non reinforced
- Fleece backed

## **Advantages**

- Chemical resistant
- Flexible
- Weldable seams

## **Limitations**

- Plasticizer migration
- UV aging over time

## **Applications**

- Roofs
- Tunnels
- Tanks
- Green roofs

## **Installation**

1. Substrate prep
2. Membrane placement
3. Hot air weld
4. Anchorage
5. Detailing
