BLANEY

Collection

Josh Blaney Originals are painted from his uniquely evocative perspective of Las Vegas' scapes that focus on the whimsical architectural and wild history of this, his native city where he still resides today.

Josh's art captures the past, present and future of this flourishing entertainment destination as it has become an unexpectedly successful oasis in the desert where cactus, wildlife, and prospectors for golden nuggets made way for the power of imagination, money and fantasy.

Josh attended the Las Vegas Southwest Career and Technical Academy high school for performing and creative arts. His numerous awards for graphic design earned him the acknowledgement of one of the most important "young artists to watch" in 2012.

Steve Wynn was a visionary who brought true themed hotels that showcased elegance and prestige. The hotel guitars from the Hard Rock Hotel and Casino were iconic, while the hotel hosted rock stars and royalty.
