

# THE MESSAGE CHURCH

## HOW TO USE “FIND ME”

*Find your photos quickly with facial recognition*

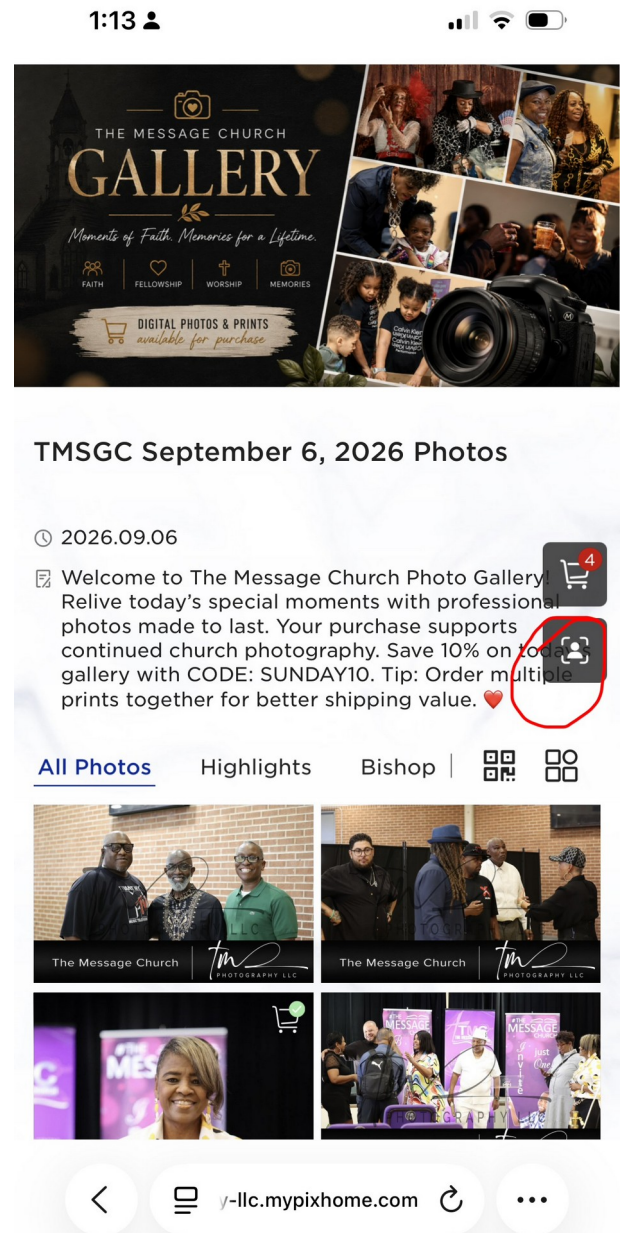

TaMara Myles Photography LLC • Every Picture Tells a Story

### STEP 1

#### Open the gallery

Open the current Message Church photo gallery on your phone. When the gallery appears, look on the right side of the screen for the small person/face icon.

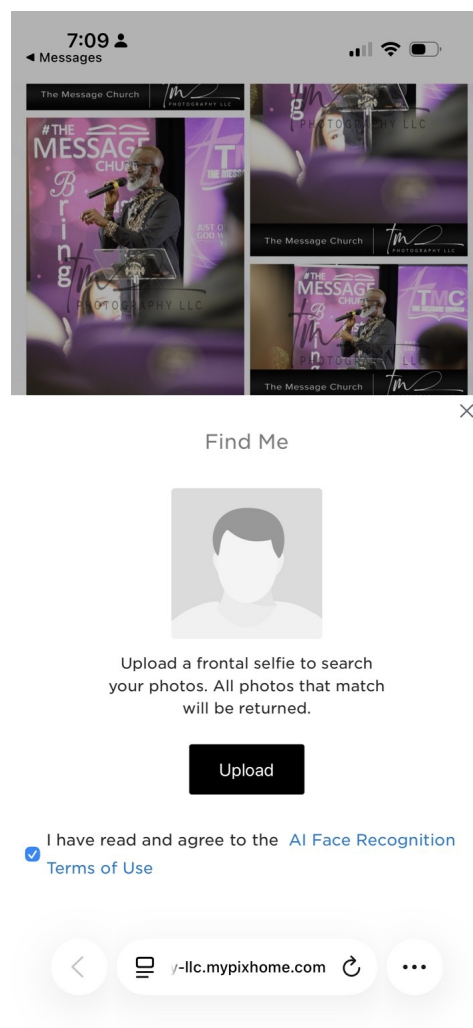

**TIP:** The Find Me icon may float along the right side of the gallery.

## STEP 2

### Open Find Me

Tap the person/face icon. The Find Me window will open. Make sure the box beside “I have read and agree to the AI Face Recognition Terms of Use” is checked.

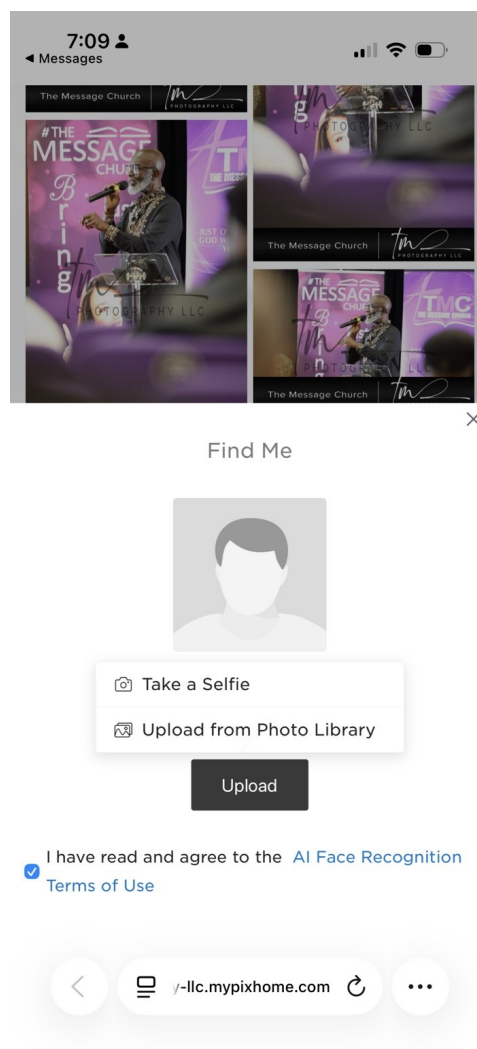

## STEP 3

### Tap Upload

Tap Upload to provide a clear photo of your face. Depending on your phone, you may be offered options such as Take a Selfie, Photo Library, Take Photo, or Choose File.

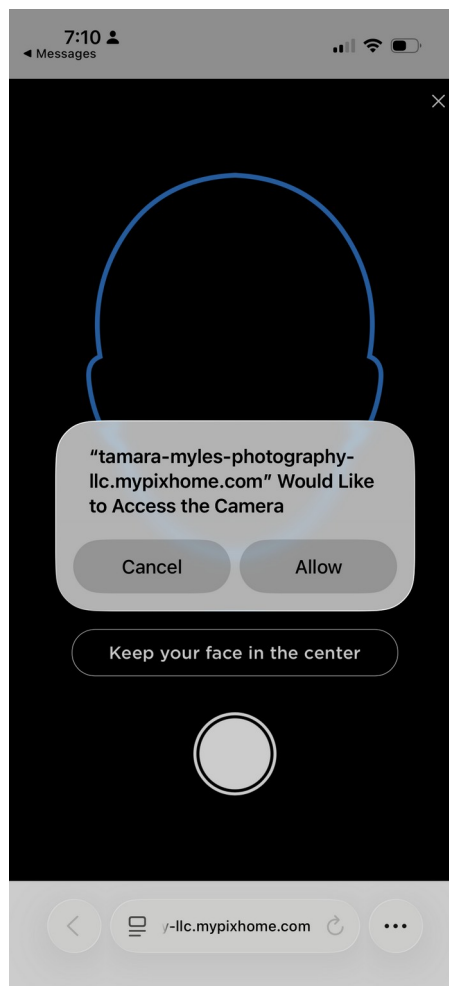

**TIP:** Use a clear, front-facing photo for the best search results.

## STEP 4

### Take a selfie or choose a photo

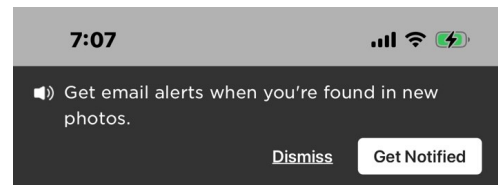

If you choose to take a selfie, your phone may ask for permission to use the camera. Tap Allow, center your face in the guide, and take the photo. You may also select a suitable photo already saved on your phone.

## STEP 5

### Let Find Me search

After your photo is submitted, Find Me searches the photographs in that gallery for possible matches. Your matching photos will appear together on the screen.

## STEP 6

### View and purchase your photos

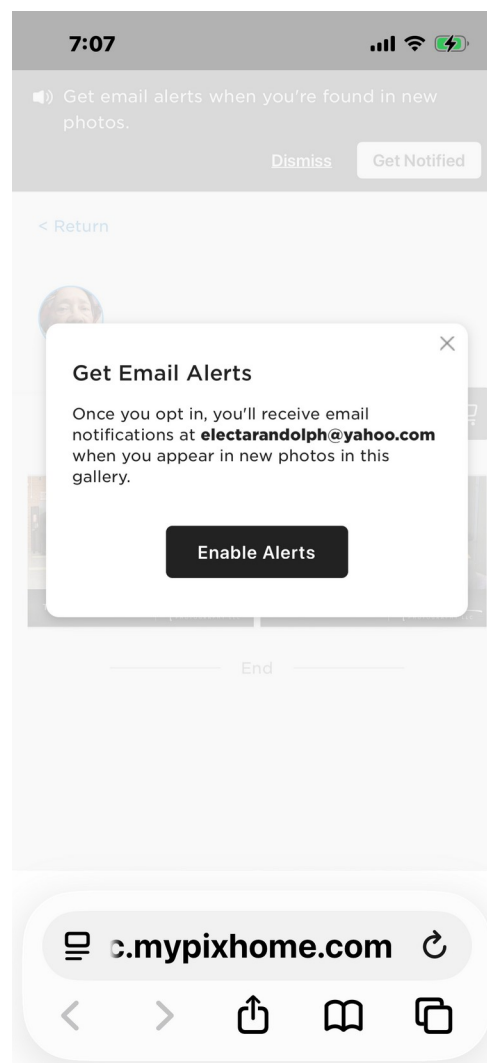

Tap any matching photograph to view it larger.  
When you are ready to order, tap the shopping cart  
or Buy option and follow the gallery checkout steps.

## STEP 7

### Optional: get email alerts

If you see “Get email alerts when you’re found in new photos,” tap Get Notified if you want alerts. Confirm the email address shown, then tap Enable Alerts. You may dismiss this option if you do not want notifications.

### IMPORTANT

Find Me searches only the photographs currently available in that gallery. If you know you were photographed but do not see a match, return to the gallery and browse All Photos manually.
