

# Prepping For Your Grout Transformation

The big day is here! Your grout will be renewed, transforming your floor, shower, or backsplash into something truly glamorous that is as durable and it is beautiful. There are a few things you need to do to prepare the area Glamour Grout will be transforming. Follow these steps to ensure your project starts on time and runs smoothly.

**Let's get started!**

---

## Floors

1. Remove all area rugs, bathmats, or anything else from the floor.
2. Remove any furniture. If you are not able to move large pieces of furniture or appliances, Glamour Grout will do our best to paint as close as possible without getting paint on any of surfaces. We would love to help, but Glamour Grout cannot move furniture.
3. Clear the tile and grout of any dried food bits. We don't want to paint over them or come nose to nose with last night's dinner.
4. Thoroughly vacuum the area/s being painted.
5. Identify and mark any grout lines you want repaired. Glamour Grout will look at grout repair needs during the initial consultation.
6. If we are painting a bathroom floor, we will be getting up close and personal with the porcelain. Please clean the toilet and the surrounding tile thoroughly.
7. We love kids and pets but, for everyone's safety please keep them out of the project area.

## Showers, tub surrounds, and backsplashes

1. Empty the tub or shower of all bottles, soaps, scrubbies, razors, etc.
2. Clean any soap residue, shower gel, and shampoo/conditioner from the tile and grout.
3. Clear off the countertop/s in front of any backsplash being refreshed.
4. Wipe off any dried food bits and grease from backsplashes.
5. Be sure tile and grout are completely dry.
