

Carousel Cove Traffic and Pedestrian Safety

To help improve **traffic flow and pedestrian safety** throughout our community, the Carousel Cove circle—comprised of **Bonita Fairways Circle, Sammoset Way, and Landfall Place**—has been striped to provide a designated vehicular traffic lane and pedestrian walkway.

One-Way Traffic

Traffic around the circle is now **one-way, traveling in a counterclockwise direction**.

The larger lane is designated for vehicular traffic. **All vehicles, including bicycles and golf carts, must use this lane** and travel in the designated counterclockwise direction.

Pedestrian Walkway

An **eight-foot-wide pedestrian walkway** has been designated for walkers and joggers. Walkers using **baby carriages or strollers** are also welcome to use the walkway.

For everyone's safety, **parking is not permitted in the pedestrian walkway**, as parked vehicles would force walkers and joggers into the vehicular traffic lane.

The only exception is **temporary parking for contractors, landscapers, and delivery vehicles while they are actively working or making deliveries**, provided they comply with applicable requirements regarding signage and the placement of safety cones.

Temporary guest parking is permitted on the traffic lane side of the street (not blocking the pedestrian walkway). Please remember that **overnight street parking is not permitted anywhere in Bonita Fairways**.

Violations of these traffic and parking regulations may result in **fines or the towing of vehicles**.

Trash, Recycling, and Yard Waste

In keeping with Lee County regulations for properties located on one-way streets waste pickup (including **trash, recycling, and yard waste**) will be collected from **only one side of the street**. To **minimize disruption of traffic flow in Carousel Cove** waste containers must be placed on the side of the street with the designated pedestrian walkway.

Containers may be placed at the curb **no earlier than 6:00 p.m. on the evening before the scheduled collection day** and must be removed **no later than 6:00 p.m. on the day of collection**.

The changes to the traffic flow in Carousel Cove are intended to make walking, jogging, biking, and driving around our community **safer and more comfortable for everyone**.

Thank you for your cooperation and consideration of your neighbors as we work together to keep Carousel Cove a **safe, attractive, and welcoming community**.

Larry King

Carousel Cove Board President
