**Subject:** Email 19-0011 Swale and Mowing

To all Carousel Cove Homeowners,

The work on the swales is moving along. Denny has spoken to Bobby's Landscaping to discuss how to approach the mowing due to the work in the swales. Bobby's crew will not be able to drive the mowers across the swale to avoid damaging it. His crew will have to drive across driveways in order to mow each side of the swale separately. The soft tires may leave marks on the driveways. The board is notifying homeowners and asking that you do not call Bobby to complain about his crew crossing the driveway while mowing.

Please reply all if you wish to provide any helpful input.
