

FOAM DISC PIG DATA SHEET

Middle East Manufacture of Pipe Cleaning
Equipment

FOAM DISC PIG

General Information

The Foam Disc are used for liquids removal.

The polyurethane foam body is moulded with circular grooves across its body to provide a series of wiping edges.

These grooves are coated with a polyurethane elastomer, which improve the wiping action and increase its wear resistance.

Features & Benefits

- Removes Condensate from Wet Gas Systems.
- Paraffin Removal in Crude Oil Pipelines.
- Water Removal in Product Pipeline.
- Available in Medium and High-Density.
- Bi-Directional.
- Single Piece Construction.
