Thursday, February 20, 2020

Girl Day - Jr. High/Middle School Students, by reservation

UT activities, contact — Bryan Bosch: PH: 419.530.8000 Bryan.Bosch@UToledo.Edu

*Please join us as we welcome our
2020 Engineers Week Keynote Speaker*

William Gurstelle
Writer | DIY Expert | Engineer

Are you a risk taker? Everybody is to some extent, and some take more risks than others. But what are the differences between taking acceptable risks and making not-so-wise choices?

Based on his popular book *Absinthe & Flamethrowers*, author William Gurstelle explains the history, psychology, and biology of personal and professional risk taking in his upcoming talk, *The Art of Living Dangerously*. This presentation incorporates the best research in the field and is illustrated with intriguing examples. Named to *Wired* magazine's Smart List and a TED speaker, William Gurstelle is a science writer, bestselling author, and mechanical engineer. He is currently a contributing editor for *Popular Science* and *Make* magazines. Among his 12 books are *Backyard Ballistics*, *Art of the Catalyst*, and *ReMaking History Volumes 1, 2, and 3*.

SPONSORSHIP

In order to maintain the programs associated with Engineers Week, sponsors are needed.

Sponsor's dollars go towards defraying the various costs of maintaining all the programs from handouts, Engineer for a Day lunches for students and teachers, administrative costs, speaker fees, flowers, plaques, scholarships, facilities and miscellaneous costs. Being a sponsor is a great way to participate if you are unable to attend any of the functions.
