Editor's Message - Hello Bowlers!

Hope you have all received your COVID vaccinations and are all fully vaccinated. I have had mine, and I personally wish you all good health and great scores this year!

I haven't bowled in over a year, so I thought it would take 6-12 games to get back into form. Well, I am 40 games into my comeback and I am still 20 pins under my normal average. I am too stubborn or prideful to accept this, so I keep practicing.

We completed the 60th Annual Hernando County Women's Tournament on April 17th-18th. I could say that everything went well, but I would rather tell the truth. First I want to apologize to the ladies that got into brackets and had to wait around until we recalculated the last game by hand. I appreciate your patience and good nature. There was also a bad handicap formula for doubles, so the original Facebook posting was incorrect. It was caught and corrected before checks were sent out, so checks that were sent and the results posted on the web are all correct. The results will also be in this newsletter. I am a retired computer programmer and I wrote the system that we used. I violated a basic rule of programming by trying to put too much into the system in too little time. This led to the errors I told you about. Two senior members of the board were being very kind and helpful and told me to get what I needed to make the next tournament a success. I purchased the new software and have been working with it for about 2 weeks. The squad setup, payment, lane assignments, score entries and reports all seem to work well. I have learned the Brackets portion and look forward to using them in the next tournament.

Everybody have a great summer and I look forward to seeing you at the Men's Tournament on May 8-9, the Youth/Adult on May 16, and the Open on June 5-6.

Coaching Hint: If you have been hitting the pocket and suddenly begin to go high or split, then you need to move. If you are bowling on a house shot, like in league, the best move is parallel moves. By this, I mean move your feet one board left and your eyes one board left at the same time. This will keep your ball in the oil and keep it from hooking too soon.
