

# How it all started

Our company is inspired by the humble journey of our founder and CEO Fernando Orozco. Starting from small beginnings and servicing lawns on his own, Fernando's hard work and dedication have clearly played a significant role in building the foundation of our company.

It's also commendable that he has extended his support to family, friends, and other honest and hardworking individuals, helping us pursue our dreams and thrive. Such a commitment to helping others succeed is often a key element in the growth and success of a company.

If you have any specific questions or if there's more you'd like to know about our company's history or its current activities, feel free to ask!
