**PROFILE**

# WHO WE ARE

Great spaces make great Live. Experience the very fabric of your building

## WE CARE

We collaborate with you to get a clear understanding of your needs and requirements for the space, allowing us to produce a comprehensive & detailed plan that gives you an overview of the costs and time frame for sound decision-making

## WE'RE CREATIVE

As one of the best interior design companies in Dubai, we have mastered the perfect combination of light, space and all the fine details necessary to create an unforgettably luxurious experience for everyone utilizing the space

## WE DELIVER

The best decisions are a result of the most thorough and meticulous planning. As such, our luxury interior design company in Dubai uses physical models and mock-ups to examine the context of a space and deliver innovative solutions to better serve your company

# HOW WE DO IT

## 01 LISTEN

We got in touch with the client and talk about his needs, project scope, budget, timeline and our process keeping his need in mind

## 02 AGREE

We will send you a proposal outlining your project scope and detailing our design fees.

## 03 DESIGN

Based on your preference and lifestyle we will create a design concept proposal

## 04 PRESENT

The big vision of your space. Reviewing the like and dislike in the design

## 05 DETAIL

Once the concept design is approved, the detailed design process shall begin including detailed drawings and materials selection

## 06 BUILD

We will work closely in this stage between the contractor and client to convey the client vision to reality within the allocated budget.

## Sport Complex Concept Design

The study focused on the interaction of the required social, culture and sport spaces to create symbiotic spaces for the whole family activities with an emphasis on the importance of interaction in the blanks with the neighboring urban environment and the sport filed environmental requirements. A specific shell system and materials was adopted to give dynamism to the spaces so that it combined with the project components to form the required equation of designing life, spaces, and building.
