

Our online piano course is designed specifically for children ages 6+, offering a flexible, interactive, and supportive environment to build a lifelong love for music.

How it Works:

Interactive Progress Tracking: Connect your piano to our specialized software so we can monitor your child's progress and celebrate their achievements.

Personalized Feedback: Submit videos of your child's playing for professional review. Our experienced teachers will ensure proper technique and mastery of skills before moving forward.

Monthly Masterclass: Join a live, interactive session each month where your child can perform for their peers, ask questions, and receive direct feedback from our teachers.

24/7 Support: Use our chat function anytime to ask questions or get help throughout the month.

Comprehensive Materials: We'll ship your child's books upon enrollment and guide you through setting up your piano with our software for an optimal learning experience.

Leveling Up: Once your child completes a level, your child will seamlessly move on to the next stage of their musical journey. To celebrate their accomplishment, we'll send them a personalized "Level Up" certificate to commemorate their hard work and dedication!

Monthly Subscription: Your subscription will automatically renew each month. You may cancel at any time.

Teacher Recommendations:

Our teachers recommend setting aside **15-30 minutes each day** for focused piano practice using our interactive piano software. To complement this, spend **10-15 minutes once a week** watching the lesson video and completing the activities in the Discovery Book.

This consistent routine is designed to mimic the structure of an in-person piano class, providing regular instruction and hands-on practice. By following this schedule, your child will build strong musical habits, stay engaged, and make steady progress on their piano journey!
