About GITPM

CMMI Level III

ISO 9001-2008

Governance and Information Technology Program Management (GITPM), LLC is a woman owned; Small Disadvantaged 8(a) Joint Venture between LCH Consulting (LCH) and Technical and Management Resources, Inc (TMR). **GITPM** provides Systems Engineering and Technical Assistance (SETA) services which supports an array of service environments including enterprise information technology (IT) infrastructure design, information security, governance, quality control and quality assurance. GITPM provides strategic, tactical and operations support services across a broad service support stack that includes computer programming services, systems design services, computer facilities management and systems integrations services, program management support, and telecommunications solutions.

GITPM brings one subcontractor teammate, International Business Express, Inc. (IBEX). IBEX is a small disadvantaged business headquartered in Washington, DC. IBEX provides IT service solutions to the Federal Government and commercial markets with core competencies in Computer Programming Services, Systems Design Services, computer facilities management and systems integrations services, program management support, telecommunications solutions, and IT cyber security support services. IBEX has extensive global expertise in LAN/WAN environments including design, development, and implementation.
