## ELEMENTS

### WHY A HYBRID SHUTTER?

Elements takes the traditional plantation shutter to a progressive new level. This unique hybrid incorporates a solid poplar timber frame with PVC blades. Highprofile Elements is a light weight shutter that prevents sag and allows for a wider panel expanse than full PVC shutters. Through the clever fusion of natural and synthetic elements, it is a cost effective shutter solution with enduring style.

#### WARRANTY

- COMPOSITION** 100% Poplar frame, PVC blades
- CONSTRUCTION** 2 stage rebated, fluted mortise and tenon joint
- PAINT FINISH** Polyurethane system for frame & blades. Includes 3 undercoats and top coat.
- BLADE SIZES** 64mm, 89mm
- APPLICATIONS** Fixed, Hinged, Multi-fold, Sliding

#### STANDARD COLOURS
