£0-£250

## SUPPLY CHAIN WAREHOUSE OPERATIVE L2

The Supply Chain Warehouse Operative apprenticeship has been developed to support learners in a warehousing role and provides a highly transferable set of knowledge, skills and behaviours. Your core responsibility is to handle goods safely in and out of the storage facility.

**Typical duration to gateway:** 12months

To achieve the Supply Chain Warehouse Operative L2 Apprenticeship Standard each learner must:

- Participate in regular one-to-one reviews with their line manager
- Engage with their Assessor/Tutor for guidance in meeting the required knowledge, skills, and behaviours
- Complete the minimum off-the-job training hours as set by the Department for Education
- Hold, or achieve through AM Training Associates Ltd, a Level 1 qualification in English and mathematics or work towards a Level 2 (mandatory for learners aged 16-18; optional for those aged 19+)
- Successfully pass the End Point Assessment

**Knowledge, Skills and Behaviours (KSBs) assessed are:**

Work organisation	Communication	Information technology and digital
Environment and sustainability	Stock control	Equality and diversity
Continuing professional development	Health and safety	Safe use of manual handling equipment
Task organisation	Documentation	Teamwork

### End Point Assessment (EPA)

End Point Assessment is carried out by an external organisation (EPAO) and is made up of the following:

1. Interview with Portfolio of Evidence - 60minute interview underpinned by a portfolio of evidence.
2. Observation with Q&As - 75minute observation of the learner carrying out their day to day duties, including questions both during and after the observation.

**Apprentices' 1st attempt at EPA are covered by the course funding, however, in the event of an Apprentice failing, their EPA re-sit / re-take costs will fall to the employer.**
