

# Quick Cybersecurity Guide

*Cerberus SecureTech | Essentials for Solopreneurs & Small Businesses*

This starter kit includes basic but critical security steps you can apply immediately:

- Use a password manager to generate and store secure passwords
- Set up 2-factor authentication (2FA) for all major logins
- Keep all devices updated and encrypted
- Back up data regularly using cloud or offline solutions

This guide is meant to be a fast-track checklist - not a substitute for a full audit.
