Focus: Body Control

One of the most important skills in pickleball? Body control. Staying balanced, calm, and in sync sets the foundation for every great shot.

Here are a few simple ways to improve it:

- **Reset Your Mind:** Clear distractions before you step on the court. A focused mindset leads to better reactions and decision-making.
- **Control Your Breathing:** Try a simple rhythm: in through your nose, out through your mouth. It helps you stay calm and centered during play.
- **Prepare Your Body & Eyes:** Do a quick active warmup and get your eyes engaged by focusing on two points and shifting between them—this sharpens your awareness and reaction time.

Mastering body control starts before the first serve—and it shows in every point you play.
