

ARTIST STATEMENT

My mixed media work reflects my participation in the outdoors. Running over 5,400 miles a year, in some of the country's most erogenous, wild, and urban areas has sharpened my mind, invigorated my body, and intensified my emotions. Some of the salvaged materials I find along the road or in Little Free Libraries. Some I paint or draw. The pieces are records of observations, experiences, and feelings, brought together by curiosity and imagination.
