President's REPORT

Hello Members and Friends,

Hoping that your summer will bring you quality time with family and musky fishing success on the water. Unfortunately, our recent club outings have left us almost empty handed. Members, we need your help in the future. This season the Old Club Challenge vs.

Muskellunge Club of Wisconsin in late May on Pewaukee Lake produced no fish for either club and the Challenge was declared a tie. In the Stump Challenge versus 12 Apostles Musky Club, we fished from the Mosinee dam to the Biron Dam near Stevens Point. Seven fish were caught (5 by 12 Apostles Musky Club and 2 by Bill's Musky Club), leaving 12 Apostles Musky Club the Challenge win, awarding them with the coveted Stump Challenge trophy.

First of all, congratulations to both clubs during these early outings, especially the members who caught fish. A special thanks to both clubs for their kind hospitality and outstanding camaraderie. All of our outings are family friendly and always fun. But, the common denominator in two recent outings is the fact that Bill's Musky Club anglers were greatly outnumbered by their opponents. During these two outings, Bill's had a total of 10 anglers participating (4 anglers on Pewaukee Lake and 6 anglers on the Wisconsin River south of the Mosinee dam). This lack of attendance has hurt our competitive edge. In the future, I'm asking all members to participate. That way, we will build a full team of competitive anglers and more members will enjoy the benefits of our club. If you wish to be placed on the "Competitive Angler Outing List," please let me know. We will call our members on the list and encourage them to commit to fishing the outings scheduled in the future. Hopefully, we will bring our trophies back to Bill's Musky Club soon.

As you page through the newsletter, you will see pictures from our recent outings and from the Annual Banquet at the Central Wisconsin Expo and Convention Center. Please note that the venue for the 2026 Annual Banquet has changed. Since the State Bowling Tournament is coming to town next April, we will need to switch our banquet site to Dale's Weston Lanes. Please note the other changes to the Annual Banquet that are listed on the printed flyer. Reserve your tickets early as we will be seated in a limited space. No worries though, our banquet will continue to serve an excellent meal, we will feature fantastic raffles and youth prizes (Jim/Lance Wroblewski Youth Memorial), and as always provide great entertainment. This family event is an excellent opportunity to celebrate our current membership and legendary history.

Also, within our newsletter, you will find an essay written by one of our Bill's Musky Club Scholarship recipients, Brady Lokken from Mosinee

continued on next page

High School. It warms my heart that we can still find a passion for the outdoors in our youth. Brady captures his love for the outdoors in his writing. Please take the time to read his essay. Speaking of youth, please help build our upcoming Bill Melanson Memorial Youth Tournament which will be held on September 27 on beautiful Lake Wausau at the Eagles Club from noon until 6pm. We will need volunteers to register youth, give away prizes, guide fishing trips for young anglers, and participate in the banquet at Eagles Club (see the flyer)

Lastly, we have local news from the DNR. The Rothschild Dam—timber crib Spillway Reconstruction Project will occur soon. Domtar is proposing to remove and replace the timber section of the hydroelectric facility due to its deteriorating condition. The new structure will include a non—overflow section, two hinged crest gates supported on a reinforced concrete spillway, a reinforced concrete labyrinth spillway, reinforced stilling basins downstream of the spillways and associated reinforced concrete retaining walls and training walls. Additionally, the design incorporates a vehicle bridge over the spillway for access and maintenance.

This project also involves the installation of temporary upstream and downstream cofferdams in the Wisconsin River around the dam to complete the project. These cofferdams will consist of sheet piling and extend from the shoreline to the end of the project area, where they tie into existing dam features. The cofferdams will be removed following the completion of the project. The project is anticipated to commence construction in the summer of 2025 and be substantially complete by January 2029, with the final restoration completed in the summer of 2029.

We hope that you will continue to find local places to fish and that you find great success when you do. Please remember that you can now renew your membership online as well as register your fish. Use our newly updated website at www.billsmuskyclub.com. Have a great summer and we'll see you on the water.

Stump Challenge vs. 12 Apostles Musky Club

SCHOLARSHIP ESSAY

submitted by Braden Lokken

Growing up in the rural area of Knowlton, Wisconsin, I have been so fortunate to have easy access to hunting land and fishing lakes and streams. I live on my great-grandpa's old farmland, which serves as hunting land, farming land, and a place to drive four-wheelers and snowmobiles around. Growing up in the country instilled my love for the outdoors. I am passionate about all things outdoors, but the activities of fishing and hunting are my favorites.

My love for fishing was influenced when my great-grandfather gifted me his old tackle box. I was ecstatic. The same day I received his old fishing gear, I made my mom take me to the chub stream down the road. Ever since that moment, fishing has become one of my favorite pastimes and hobbies.

Fishing has taught me countless life lessons. Through endless casts with no bites, I have learned the importance of patience. Patience is truly a virtue that can be demonstrated through the great sport of fishing. Fishing has taught me that the best things in life come with patience. Additionally, another valuable lesson I have learned is to enjoy things for their full experience. Knowing that not every fishing trip will bring in a record-breaking fish is essential to valuing the experience as a whole and not placing expectations on the outcome.

One of my favorite fishing experiences was trout fishing on the Namekagon River this past year. This trip included two of my friends and their fathers. We woke up early each morning, eager to step foot into the river. Casting my line and breathing in the cool morning air was the most peaceful thing I have ever experienced. My father and I had some luck on this trip catching a few nice brown trout, but what was more rewarding was watching our friend catch a fish of a lifetime, a 27-inch brown trout. Bonding over this experience reminded me how fishing creates everlasting memories and experiences to always be thankful for. Overall, this opening trout season trip will continue to be a tradition I look forward to every year.

As I enter into the next chapter of my life, I will continue to be deeply passionate about fishing and carry on the life lessons it has taught me. I will attend Saint Mary's University of Minnesota

next fall. An intriguing factor about this university that drew me in was its trout stream running through campus. I am extremely excited to put on my waders and start casting.

Hunting season is also one of my favorite times of the year. My passion for hunting stems from the long tradition of family gatherings at my great-grandpa's farmhouse for hunting camp. Hunting is a sport that allows me to get outside and be one with nature. It also provides an opportunity to gather with family and friends for good food and fellowship.

I have learned many life lessons through hunting. Much like fishing, sitting in my hunting stand for countless cold hours each day has taught me the importance of patience. Hunting also allows me to reflect on the things that bring me the most joy in life. Having the ability to experience such a wonderful thing as harvesting a deer has taught me the importance of gratitude.

My favorite hunting experience is when I harvested my first deer with my father. Being able to bond and spend quality time with my old man over a sport we both cherished was a moment I will never forget. I was 10 years old when I harvested my first deer during the rut. I was patient all week long, waiting for a buck to follow a doe. Dark was approaching, and my hope of seeing a deer was dwindling. My dad noticed a doe appearing from our creek bottom. Following not too far behind was a buck that I was able to shoot and call my first hunting success. This hunt ended very rewarding to see all my dedication pay off.

Whether hunting or fishing, being able to spend time outdoors is essential to my happiness and health. I have learned so many life lessons and carry countless memories with me that I will be able to share with my children someday. Hunting and fishing are both sports that I am greatly passionate about, and they continue to have a special place in my heart.

MUSKY CLUBS ALLIANCE OF WISCONSIN

Bill's Musky Club is a member of the Musky Clubs Alliance of Wisconsin. The Alliance is an organization to which 24 different musky clubs belong.

The purpose of the alliance is to provide an organizational framework in which the clubs can share information and work together to improve the musky fishery in Wisconsin.

The Alliance meets on the first Saturday in April and November in Stevens Point, usually at the Stevens Point Moose Lodge. Meeting usually start at 10:00 a.m. Their web site is: <http://www.muskyclubsalliance.org>.

If you have items that you would like the Musky Alliance of Wisconsin to discuss, please contact:
