DDR Corp. considers portions of the information in this press release to be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, with respect to the Company's expectation for future periods. Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved. For this purpose, any statements contained herein that are not historical fact may be deemed to be forwardlooking statements. There are a number of important factors that could cause our results to differ materially from those indicated by such forward-looking statements, including, among other factors, property damage, expenses related thereto and other business and economic consequences (including the potential loss of rental revenues) resulting from extreme weather conditions in locations where we own properties, and the ability to estimate accurately the amounts thereof; sufficiency and timing of any insurance recovery payments related to damages from extreme weather conditions; local conditions such as supply of space or a reduction in demand for real estate in the area; competition from other available space; dependence on rental income from real property; the loss of, significant downsizing of or bankruptcy of a major tenant; redevelopment and construction activities may not achieve a desired return on investment; our ability to buy or sell assets on commercially reasonable terms; our ability to complete acquisitions or dispositions of assets under contract; our ability to secure equity or debt financing on commercially acceptable terms or at all; our ability to enter into definitive agreements with regard to our financing and joint venture arrangements or our failure to satisfy conditions to the completion of these arrangements; the termination of any joint venture arrangements or arrangements to manage real property; the impact of the recent spin-off of Retail Value Inc. or the portfolio transition or any change in strategy; the success of our deleveraging strategy; our ability to maintain REIT status; and the finalization of the financial statements for the period ended June 30, 2018. For additional factors that could cause the results of the Company to differ materially from those indicated in the forward-looking statements, please refer to the Company's most recent reports on Form 10-K and Form 10-Q. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof.

For immediate release:

DDR REPORTS SECOND QUARTER 2018 OPERATING RESULTS

BEACHWOOD, OHIO, July 25, 2018 – DDR Corp. (NYSE: DDR) today announced operating results for the quarter ended June 30, 2018.

"I am pleased with our results, highlighted by the completion of the spin-off of Retail Value Inc., allowing DDR to retain a focused, high quality, and growth-oriented portfolio of 78 wholly-owned assets," commented David R. Lukes, president and chief executive officer. "Our operating performance in the quarter was also excellent, with strong leasing volumes and spreads, including notable leases with new portfolio tenants, and better than expected same store net operating income."

Results for the Quarter

- Second quarter net loss attributable to common shareholders was \$11.7 million, or \$0.07 per diluted share, as compared to net income of \$23.2 million, or \$0.13 per diluted share, in the year ago-period. The year-over-year increase in net loss is primarily attributable to spin-off transaction costs of \$31.4 million and lower gain on sale of assets partially offset by lower impairment charges.
- Second quarter operating funds from operations attributable to common shareholders ("Operating FFO" or "OFFO") was \$90.5 million, or \$0.49 per diluted share, compared to \$108.8 million, or \$0.59 per diluted share, in the year agoperiod. The year-over-year decrease in OFFO is primarily attributable to the dilutive impact of deleveraging asset sales.

Significant Second Quarter Activity

- On July 1, 2018, completed the previously announced spin-off of Retail Value Inc. ("RVI"), an independent company on the New York Stock Exchange under the ticker symbol RVI. RVI owned a portfolio of 48 assets that included 36 continental U.S. assets and all 12 of DDR's previously owned Puerto Rico assets at the time of the spin-off. DDR has retained a preferred stock investment of \$190 million and will continue to manage the RVI assets.
- Sold 17 shopping centers and land parcels for an aggregate sales price of \$421.1 million, totaling \$202.7 million at DDR's share, including \$10.3 million from the repayment of the Company's preferred equity investment in its two joint ventures with Blackstone. Includes two RVI shopping centers sold prior to completion of the spin-off at an aggregate sales price of \$105.8 million.
- Executed a one-for-two reverse stock split of the Company's common shares in May 2018. All prior period per share information has been restated to reflect the impact of the reverse stock split.

Key Quarterly Operating Results

- Reported 1.4% same store net operating income growth on a pro rata basis for New DDR. The results of "New DDR" represent the results of the assets as of July 1, 2018 that remain in DDR after the completion of the spin-off of RVI.
- Generated new leasing spreads of 24.7% and renewal leasing spreads of 5.7%, both on a pro rata basis for New DDR for the quarter, and new leasing spreads of 21.9% and renewal leasing spreads of 6.5%, both on a pro rata basis for New DDR for the trailing twelve-month period.
- Reported a leased rate of 93.1% at June 30, 2018 for New DDR on a pro rata basis, compared to 93.2% at June 30, 2017.
- Annualized base rent per occupied square foot on a pro rata basis was \$17.36 at June 30, 2018 for New DDR, compared to \$17.08 at June 30, 2017.

Guidance

There has been no change in the Company's Operating FFO per share guidance since the update provided on June 4, 2018, for the effect of the reverse stock split. The Company continues to estimate Operating FFO for the third quarter of 2018 to be at least \$0.30 per diluted share. Disposition fees from RVI are excluded from Operating FFO guidance.

Reconciliation of Net Income Attributable to DDR to FFO and Operating FFO Estimate:

	3Q2018E
	Per Share - Diluted
Net income attributable to Common Shareholders	\$0.04 - \$0.06
Depreciation and amortization of real estate	0.23 - 0.26
Equity in net income of JVs	(0.02)
JVs' FFO	0.04
FFO (NAREIT)	\$0.29
Transaction costs	0.01
Operating FFO	\$0.30

About DDR Corp.

DDR is an owner and manager of open-air shopping centers that provide a highly-compelling shopping experience and merchandise mix for retail partners and consumers. The Company is a self-administered and self-managed REIT operating as a fully integrated real estate company, and is publicly traded on the New York Stock Exchange under the ticker symbol DDR. Additional information about the Company is available at www.ddr.com.

Conference Call and Supplemental Information

The Company will hold its quarterly conference call today at 5:00 p.m. Eastern Time. To participate with access to the slide presentation, please visit the Investors portion of DDR's website, <u>ir.ddr.com</u>, or for audio only, dial 888-317-6003 (U.S.), 866-284-3684 (Canada) or 412-317-6061 (international) using pass code 1536254 at least ten minutes prior to the scheduled start of the call. A replay of the conference call will also be available at <u>ir.ddr.com</u> for one year after the call. A copy of the Company's Supplemental package is available on the Company's website.

Non-GAAP Measures

FFO is a supplemental non-GAAP financial measure used as a standard in the real estate industry and is a widely accepted measure of real estate investment trust ("REIT") performance. Management believes that both FFO and Operating FFO provide additional indicators of the financial performance of a REIT. The Company also believes that FFO and Operating FFO more appropriately measure the core operations of the Company and provide benchmarks to its peer group.

FFO is generally defined and calculated by the Company as net income (loss), adjusted to exclude: (i) preferred share dividends, (ii) gains and losses from disposition of depreciable real estate property and related investments, which are presented net of taxes, (iii) impairment charges on depreciable real estate property and related investments and (iv) certain non-cash items. These non-cash items principally include real property depreciation and amortization of intangibles, equity income (loss) from joint ventures and equity income (loss) from non-controlling interests and adding the Company's proportionate share of FFO from its unconsolidated joint ventures and non-controlling interests, determined on a consistent basis. The Company's calculation of FFO is consistent with the NAREIT definition. The Company calculates Operating FFO by excluding certain non-operating charges and gains. Operating FFO is useful to investors as the Company removes non-comparable charges and gains to analyze the results of its operations and assess performance of the core operating real estate portfolio. Other real estate companies may calculate FFO and Operating FFO in a different manner.

The Company also uses net operating income ("NOI"), a non-GAAP financial measure, as a supplemental performance measure. NOI is calculated as property revenues less property-related expenses. The Company believes NOI provides useful information to investors regarding the Company's financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level and, when compared across periods, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and disposition activity on an unleveraged basis.

The Company presents NOI information herein on a same store basis or "SSNOI." The Company defines SSNOI as property revenues less property-related expenses, which exclude straight-line rental income and expenses, lease termination income, management fee expense, fair market value of leases and expense recovery adjustments. SSNOI also excludes activity associated with development and major redevelopment and includes assets owned in comparable periods (15 months for quarter comparisons). In addition, due to the impact of Hurricane Maria on its properties in Puerto Rico in 2017, the Company also excludes its Puerto Rico NOI from SSNOI. SSNOI excludes all non-property and corporate level revenue and expenses. Other real estate companies may calculate NOI and SSNOI in a different manner. The Company believes SSNOI provides investors with additional information regarding the operating performances of comparable assets because it excludes certain non-cash and non-comparable items as noted above.

FFO, Operating FFO, NOI and SSNOI do not represent cash generated from operating activities in accordance with GAAP, are not necessarily indicative of cash available to fund cash needs and should not be considered as alternatives to net income computed in accordance with GAAP as indicators of the Company's operating performance or as alternatives to cash flow as a measure of liquidity. Reconciliations of these non-GAAP measures to their most directly comparable GAAP measures are included in this release and the accompanying financial supplement.

Safe Harbor

DDR Corp. considers portions of the information in this press release to be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, with respect to the Company's expectation for future periods. Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved. For this purpose, any statements contained herein that are not historical fact may be deemed to be forward-looking statements. There are a number of important factors that could cause our results to differ materially from those indicated by such forward-looking statements, including, among other factors, property damage, expenses related thereto and other business and economic consequences (including the potential loss of rental revenues) resulting from extreme weather conditions in locations where we own properties, and the ability to estimate accurately the amounts thereof; sufficiency and timing of any insurance recovery payments related to damages from extreme weather conditions; local conditions such as supply of space or a reduction in demand for real estate in the area; competition from other available space; dependence on rental income from real property; the loss of, significant downsizing of or bankruptcy of a major tenant; redevelopment and construction activities may not achieve a desired return on investment; our ability to buy or sell assets on commercially reasonable terms; our ability to complete acquisitions or dispositions of assets under contract; our ability to secure equity or debt financing on commercially acceptable terms or at all; our ability to enter into definitive agreements with regard to our financing and joint venture arrangements or our failure to satisfy conditions to the completion of these arrangements; the termination of any joint venture arrangements or arrangements to manage real property; the impact of the recent spin-off of Retail Value Inc. or the portfolio transition or any change in strategy; the success of our deleveraging strategy; our ability to maintain REIT status; and the finalization of the financial statements for the period ended June 30, 2018. For additional factors that could cause the results of the Company to differ materially from those indicated in the forward-looking statements, please refer to the Company's most recent reports on Form 10-K and Form 10-Q. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof.

Assets sold in 2Q201	8			_	1,800(1))		
Net operating incom	ne				\$75,445 (6))		

- (1) Property management fees charged by DDR to the joint venture are included as an expense in NOI, although presented in the combined income statement on the next page in the line item Other Expense. The NOI for BRE DDR III, BRE DDR IV and DDRM is adjusted to reflect the impact of assets sold in 2Q18.
- (2) Fair market value of debt adjustment and net unamortized loan costs (\$7,7 million or \$2.4 million at DDR's Share) are excluded from above.
- (3) Amount is net of \$48.7 million valuation allowance and \$94.6 million of face value repaid through June 30, 2018. Face value of \$223.6 million including accrued interest of \$3.7 million. The 8.5% dividend rate has two components, a cash dividend rate of 6.5% and an accrued payment in kind ("PIK") of 2.0%. The Company no longer recognizes the accrued PIK as income due to the valuation allowance. Repayment from net asset sale proceeds are allocated 52.3% to the preferred member unless certain financial covenants have been triggered, in which event 100% to the preferred member.
- (4) Amount is net of \$14.7 million valuation allowance and \$17.9 million of face value repaid through June 30, 2018. Face value of \$67.8 million including accrued interest of \$1.1 million. The 8.5% dividend rate has two components, a cash dividend rate of 6.5% and an accrued PIK of 2.0%. The Company no longer recognizes the accrued PIK as income due to the valuation allowance. Repayment from net asset sale proceeds are first subject to a minimum sales threshold of \$4.9 million, of which \$1.1 million is allocated to the preferred member; subsequent net asset sale proceeds are expected to be available to repay the preferred member. Included in the collateral for the preferred equity interest is 95% of the value of the five joint venture properties and 100% of the value of three properties in which the Company does not have a material interest, but to which DDR provides property asset management services.
- (5) Excludes one consolidated joint venture asset in which the Company has an effective 67% interest.
- (6) Amount agrees to the combined income statement of the joint ventures which includes a reconciliation of the Non-GAAP measure to the applicable GAAP measure. See calculation definition in the Non-GAAP Measures section.

DDR Corp.

Notable Accounting and Supplemental Policies

The information contained in the Quarterly Financial Supplement does not purport to disclose all items required by the accounting principles generally accepted in the United States of America ("GAAP") and is unaudited information. The Company's Quarterly Financial Supplement should be read in conjunction with the Company's Form 10-K and Form 10-Q.

Revenues

- Percentage and overage rents are recognized after the tenants' reported sales have exceeded the applicable sales breakpoint.
- Tenant reimbursements are recognized in the period in which the expenses are incurred.
- Lease termination fees are recognized upon termination of a tenant's lease when the Company has no further
 obligations under the lease.

General and Administrative Expenses

- General and administrative expenses include certain internal leasing salaries, legal salaries and related expenses associated with the leasing of space which are charged to operations as incurred.
- The Company does not capitalize any executive officer compensation.
- General and administrative expenses include executive property management compensation and related expenses. Property management services' direct compensation is reflected in operating and maintenance expenses.

Deferred Financing Costs

Costs incurred in obtaining term financing are included as a reduction of the related debt liability and costs
incurred related to the revolving credit facilities are included in other assets on the consolidated balance sheets.
All costs are amortized on a straight-line basis over the term of the related debt agreement; such amortization is
reflected as interest expense in the consolidated income statements.

Real Estate

- Real estate assets are stated at cost less accumulated depreciation, which, in the opinion of management, is not
 in excess of the individual property's estimated undiscounted future cash flows, including estimated proceeds
 from disposition.
- Construction in progress includes shopping center developments and significant expansions and redevelopments.
- Acquisitions of a partner's interest in an unconsolidated joint venture in which a change of control has occurred
 are recorded at fair value.
- Depreciation and amortization are provided on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings 20 to 40 years Building Improvements 5 to 20 years

Furniture/Fixtures/ Shorter of economic life or lease terms

Tenant Improvements

Capitalization

- Expenditures for maintenance and repairs are charged to operations as incurred. Renovations and expenditures that improve or extend the life of the asset are capitalized.
- The Company capitalizes interest on funds used for the construction or expansion of shopping centers and
 certain construction administration costs. Capitalization of interest and administration costs ceases when
 construction activities are completed and the property is available for occupancy by tenants or when activities
 are suspended.
- Interest expense and real estate taxes incurred during construction are capitalized and depreciated over the building life. The Company does not capitalize interest on land held for development which is on hold and is not undergoing any development activities.

DDR Corp.

Notable Accounting and Supplemental Policies

Gains on Sales of Real Estate

- Gains on sales of real estate generally related to the sale of outlots and land adjacent to existing shopping centers are recognized at closing when the earnings process is deemed to be complete.
- Effective in 2015, the operating activity and the gains or losses on the sales of operating shopping centers are generally no longer reflected as discontinued operations.

Leasing Spreads

• Leasing spreads are calculated by comparing the prior tenant's annual base rent in the final year of the old lease to the new tenant's annual base rent in the first year of the new lease. The reported calculation, "Comparable", only includes deals executed within one year of the date that the prior tenant vacated. "Non-comp" deals consist of deals not executed within one year of the date the prior tenant vacated, deals which resulted in a significant difference in size or deals for space which was vacant at acquisition.

Net Effective Rents

• Net effective rents are calculated as a weighted average per rentable square foot over the lease term with full consideration for all costs associated with leasing the space rather than pro rata costs. Landlord work represents property level improvements associated with the lease transactions; however, those improvements are attributed to the landlord's property value and typically extend the life of the asset in excess of the lease term.

DDR Corp.Non-GAAP Measures

Performance Measures

FFO and Operating FFO

The Company believes that Funds from Operations ("FFO") and Operating FFO, both non-GAAP financial measures, provide additional and useful means to assess the financial performance of REITs. FFO and Operating FFO are frequently used by the real estate industry, as well as securities analysts, investors and other interested parties, to evaluate the performance of REITs.

FFO excludes GAAP historical cost depreciation and amortization of real estate and real estate investments, which assume that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions, and many companies use different depreciable lives and methods. Because FFO excludes depreciation and amortization unique to real estate and gains and losses from depreciable property dispositions, it can provide a performance measure that, when compared year over year, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, interest costs and acquisition, disposition and development activities. This provides a perspective of the Company's financial performance not immediately apparent from net income determined in accordance with GAAP.

FFO is generally defined and calculated by the Company as net income (loss) (computed in accordance with GAAP), adjusted to exclude (i) preferred share dividends, (ii) gains and losses from disposition of depreciable real estate property and related investments, which are presented net of taxes, (iii) impairment charges on depreciable real estate property and related investments and (iv) certain non-cash items. These non-cash items principally include real property depreciation and amortization of intangibles, equity income (loss) from joint ventures and equity income (loss) from non-controlling interests and adding the Company's proportionate share of FFO from its unconsolidated joint ventures and non-controlling interests, determined on a consistent basis. The Company's calculation of FFO is consistent with the definition of FFO provided by the National Association of Real Estate Investment Trusts ("NAREIT").

The Company believes that certain gains and charges recorded in its operating results are not comparable or reflective of its core operating performance. As a result, the Company also computes Operating FFO and discusses it with the users of its financial statements, in addition to other measures such as net income (loss) determined in accordance with GAAP and FFO. Operating FFO is generally defined and calculated by the Company as FFO excluding certain charges and gains that management believes are not comparable and indicative of the results of the Company's operating real estate portfolio. Such adjustments include gains on the sale of and/or change in control of interests, gains/losses on the sale of non-depreciable real estate, impairments of non-depreciable real estate, gains/losses on the early extinguishment of debt, transaction costs and other restructuring type costs. The disclosure of these charges and gains is regularly requested by users of the Company's financial statements.

The adjustment for these charges and gains may not be comparable to how other REITs or real estate companies calculate their results of operations, and the Company's calculation of Operating FFO differs from NAREIT's definition of FFO. Additionally, the Company provides no assurances that these charges and gains are non-recurring. These charges and gains could be reasonably expected to recur in future results of operations.

These measures of performance are used by the Company for several business purposes and by other REITs. The Company uses FFO and/or Operating FFO in part (i) as a disclosure to improve the understanding of the Company's operating results among the investing public, (ii) as a measure of a real estate asset's performance, (iii) to influence acquisition, disposition and capital investment strategies and (iv) to compare the Company's performance to that of other publicly traded shopping center REITs. For the reasons described above, management believes that FFO and Operating FFO provide the Company and investors with an important indicator of the Company's operating performance. They provide recognized measures of performance other than GAAP net income, which may include non-cash items (often significant). Other real estate companies may calculate FFO and Operating FFO in a different manner.

Management recognizes the limitations of FFO and Operating FFO when compared to GAAP's net income. FFO and Operating FFO do not represent amounts available for dividends, capital replacement or expansion, debt service obligations or other commitments and uncertainties. Management does not use FFO or Operating FFO as an indicator of the Company's cash obligations and funding requirements for future commitments, acquisitions or development activities. Neither FFO nor Operating FFO represents cash generated from operating activities in accordance with GAAP, and neither is necessarily indicative of cash available to fund cash needs. Neither FFO nor

DDR Corp.Non-GAAP Measures

Operating FFO should be considered an alternative to net income (computed in accordance with GAAP) or as an alternative to cash flow as a measure of liquidity. FFO and Operating FFO are simply used as additional indicators of the Company's operating performance. The Company believes that to further understand its performance, FFO and Operating FFO should be compared with the Company's reported net income (loss) and considered in addition to cash flows determined in accordance with GAAP, as presented in its condensed consolidated financial statements. Reconciliations of these measures to their most directly comparable GAAP measure of net income (loss) have been provided herein.

Net Operating Income ("NOI") and Same Store Net Operating Income ("SSNOI")

The Company uses NOI, which is a non-GAAP financial measure, as a supplemental performance measure. NOI is calculated as property revenues less property-related expenses. The Company believes NOI provides useful information to investors regarding the Company's financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level and, when compared across periods, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and disposition activity on an unleveraged basis.

The Company also presents NOI information on a same store basis, or SSNOI. The Company defines SSNOI as property revenues less property-related expenses, which exclude straight-line rental income and expenses, lease termination income, management fee expense, fair market value of leases and expense recovery adjustments. SSNOI also excludes activity associated with development and major redevelopment and includes assets owned in comparable periods (15 months for quarter comparisons). In addition, due to the impact of Hurricane Maria on its properties in Puerto Rico in 2017, the Company also excludes its Puerto Rico NOI from SSNOI. SSNOI excludes all non-property and corporate level revenue and expenses. Other real estate companies may calculate NOI and SSNOI in a different manner. The Company believes SSNOI provides investors with additional information regarding the operating performances of comparable assets because it excludes certain non-cash and non-comparable items as noted above. SSNOI is frequently used by the real estate industry, as well as securities analysts, investors and other interested parties, to evaluate the performance of REITs.

The Company believes that SSNOI is not, and is not intended to be, a presentation in accordance with GAAP. SSNOI information has its limitations as it excludes any capital expenditures associated with the re-leasing of tenant space or as needed to operate the assets. SSNOI does not represent amounts available for dividends, capital replacement or expansion, debt service obligations or other commitments and uncertainties. Management does not use SSNOI as an indicator of the Company's cash obligations and funding requirements for future commitments, acquisitions or development activities. SSNOI does not represent cash generated from operating activities in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs. SSNOI should not be considered as an alternative to net income (computed in accordance with GAAP) or as an alternative to cash flow as a measure of liquidity. A reconciliation of SSNOI to its most directly comparable GAAP measure of net income (loss) has been provided in the Press Release and this section.

DDR Corp.Non-GAAP Measures

Other Measures

DDR Pro Rata Share Financial Information

The Company believes that the DDR pro rata share of its joint ventures presented in the quarterly supplement is not, and is not intended to be, a presentation in accordance with GAAP. DDR share financial information is frequently used by the real estate industry including securities analysts, investors and other interested parties to evaluate the performance of DDR compared to other REITs. Other real estate companies may calculate such information in a different manner.

DDR does not control the unconsolidated joint ventures and the presentations of DDR JV Pro Rata Adjustments of the unconsolidated joint ventures presented in the quarterly supplement do not represent the Company's legal claim to such items. The Company provides this information because the Company believes it assists investors and analysts in estimating the effective interest in DDR's unconsolidated joint ventures when read in conjunction with the Company's reported results under GAAP. The presentation of this information has limitations as an analytical tool. Because of the limitations, this information should not be considered in isolation or as a substitute for the Company's financial statements as reported under GAAP.

Debt/Adjusted Earnings before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA)

The Company uses the ratio Debt to Adjusted EBITDA ("Debt/Adjusted EBITDA") as it believes it provides a meaningful metric as it relates to the Company's ability to meet various leverage tests for the corresponding periods.

The Components of Debt/Adjusted EBITDA include net effective debt divided by adjusted EBITDA (annualized), as opposed to net income determined in accordance with GAAP. Adjusted EBITDA is calculated as net income attributable to DDR before interest, income taxes, depreciation and amortization and further adjusted to eliminate the impact of certain items that the Company does not consider indicative of its ongoing performance. Net effective debt is calculated as the Company's consolidated debt outstanding excluding unamortized loan costs and fair market value adjustments, less cash and restricted cash as of the balance sheet date presented. Such amounts are calculated at the Company's proportionate share of ownership.

Adjusted EBITDA should not be considered as an alternative to earnings as an indicator of the Company's financial performance, or an alternative to cash flow from operating activities as a measure of liquidity. The Company's calculation of Adjusted EBITDA may differ from the methodology utilized by other companies. Investors are cautioned that items excluded from Adjusted EBITDA are significant components in understanding and assessing the Company's financial condition. A reconciliation of Adjusted EBITDA and net effective debt used in the Debt/Adjusted EBITDA ratio to their most directly comparable GAAP measures of net income (loss) and debt has been provided in the Debt Summary section.
