RVI considers portions of the information in this press release to be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, with respect to the Company's expectation for future periods. Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved. For this purpose, any statements contained herein that are not historical fact may be deemed to be forward-looking statements. There are a number of important factors that could cause our results to differ materially from those indicated by such forward-looking statements, including, among other factors, the Company's actual property NOI for 2021, which could differ materially form the NOI projections included in the press release; the impact of the COVID-19 pandemic on the Company's ability to manage its properties and finance its operations and on tenants' ability to operate their businesses, generate sales and meet their financial obligations, including the obligation to pay ongoing and deferred rents; our ability to sell assets on commercially reasonable terms; our ability to complete dispositions of assets under contract; property damage, expenses related thereto and other business and economic consequences (including the potential loss of rental revenues) resulting from extreme weather conditions and natural disasters in locations where we own properties, and the ability to estimate accurately the amounts thereof; sufficiency and timing of any insurance recovery payments related to damages from extreme weather conditions and natural disasters; local conditions such as an increase in the supply of, or a reduction in demand for, retail real estate in the area; the impact of e-commerce; dependence on rental income from real property; the loss of, significant downsizing of or bankruptcy of a major tenant and the impact of any such event on rental income from other tenants at our properties; our ability to secure equity or debt financing on commercially acceptable terms or at all; impairment charges; our ability to enter into definitive agreements with regard to our financing arrangements and our ability to satisfy conditions to the completion of these arrangements; changes with respect to the Puerto Rican economy and government; the ability to secure and maintain management services provided to us, including pursuant to our external management agreement with one or more subsidiaries of SITE Centers; and our ability to maintain our REIT status. For additional factors that could cause the results of the Company to differ materially from those indicated in the forward-looking statements, please refer to the Company's most recent report on Form 10-K. The impacts of the COVID-19 pandemic may also exacerbate the risks described therein, any of which could have a material effect on the Company. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof.

Retail Value Inc. Reports Fourth Quarter 2020 Operating Results

BEACHWOOD, OHIO, March 10, 2021 - Retail Value Inc. (NYSE: RVI) today announced operating results for the quarter ended December 31, 2020.

Results for the Quarter and Recent Activity

- Fourth quarter net loss attributable to common shareholders was \$9.5 million, or \$0.48 per diluted share, as compared to net loss of \$39.1 million, or \$2.06 per share, in the year-ago period. The period-over-period decrease in net loss is primarily attributable to reduced impairment charges, interest expense and debt extinguishment costs partly offset by reduced rental income stemming from the impact of the COVID-19 pandemic and asset sales.
- Fourth quarter operating funds from operations attributable to common shareholders ("Operating FFO" or "OFFO") was \$14.8 million, or \$0.75 per diluted share, compared to \$24.1 million, or \$1.27 per diluted share, in the year-ago period. The period-over-period decrease in OFFO is primarily attributable to the impact of the COVID-19 pandemic and asset sales partly offset by lower interest expense and debt extinguishment costs.
- Sold one property, Plaza Palma Real, and an outparcel for an aggregate gross sales price of \$52.1 million; \$51.2 million of mortgage debt was repaid in January 2021.
- In December, made a \$65.0 million voluntary repayment on mortgage debt from operating cash flow.
- The Continental U.S. leased rate was 88.9% at December 31, 2020 as compared to 90.7% at September 30, 2020. The decrease in the leased rate primarily related to the bankruptcy of Stein Mart.
- The Puerto Rico leased rate was 87.7% at December 31, 2020 as compared to 86.3% at September 30, 2020. The increase in the leased rate primarily related to the sale of Plaza Palma Real, which had a lower leased rate than the Puerto Rico portfolio's average leased rate.
- Exercised its first extension option under its loan agreement in which the loan was extended effective March 9, 2021 to March 9, 2022. In addition, extended the revolving credit facility maturity date to February 9, 2022.

Significant Full-Year Activity

- Net loss attributable to common shareholders for the year ended December 31, 2020 was \$93.6 million, or \$4.72 per diluted share.
- Generated Operating FFO of \$61.8 million, or \$3.12 per diluted share for the full year of 2020.
- Sold six shopping centers and one outparcel for an aggregate gross sales price of \$314.2 million.
- Made principal repayments on the Company's mortgage loan of \$320.1 million since December 31, 2019, excluding \$51.2 million of restricted cash held at December 31, 2020 related to December 2020 asset sales that were applied toward the repayment of the loan in January 2021. As of December 31, 2020, the outstanding balance of the Company's mortgage loan was \$354.2 million.

Key Quarterly Operating Results

The following metrics are as of December 31, 2020:

| | Continental U.S. | Puerto Rico |
|---------------------------------|------------------|-------------|
| Shopping Center Count | 11 | 11 |
| Gross Leasable Area (thousands) | 4,533 | 3,984 |
| Base Rent PSF | \$13.35 | \$19.95 |
| Leased Rate | 88.9% | 87.7% |
| Commenced Rate | 88.1% | 86.5% |
| NOI-Quarter (millions) | \$10.9 | \$12.0 |

Impact of the COVID-19 Pandemic

The impact to the portfolio as of March 4, 2021 is as follows:

| | Continental U.S. | Puerto Rico |
|---|------------------|-------------|
| % of Tenants open and operating (average base rent) | 100% | 96% |
| % of Second quarter 2020 rent paid | 85% | 78% |
| % of Third quarter 2020 rent paid | 91% | 90% |
| % of Fourth quarter 2020 rent paid | 95% | 90% |
| % of January 2021 rent paid | 99 % | 91% |

- The 98% of tenants open for business as of March 4, 2021 (based on average base rents), is up from a low of 34% in early April. In Puerto Rico, while 96% of the Company's tenants are open, most remain subject to capacity and operating restrictions.
- The Company calculates the aggregate percentage of rents paid for assets owned as of December 31, 2020, by comparing the amount of tenant payments received as of the date presented to the amount billed to tenants during the period, which billed amount includes abated rents, rents subject to deferral arrangements and rents owing from bankrupt tenants that were in possession of the space and billed. For the purposes of reporting the percentage of aggregate base rents collected for a given period, when rents subject to deferral arrangements are later paid, those payments are allocated to the period in which the rent was originally owed.
- As of March 4, 2021, agreed upon rent deferral arrangements that remain unpaid represented approximately 6% of second quarter 2020 rents, 4% of third quarter 2020 rents and 3% of fourth quarter 2020 rents. The Company granted abatements to tenants representing approximately 7% of second quarter 2020 rents and 1% of third quarter 2020 rents. There were no significant abatements of fourth quarter 2020 rents.
- At December 31, 2020, the balance sheet reflects \$2.3 million of net deferred rents, a majority of which is expected to be repaid in 2021.
- In addition, during the fourth quarter of 2020, the Company's rental revenue and NOI were reduced by \$2.7 million of uncollectible revenue primarily related to reserves associated with cash-basis tenants as well as the impact of lease modification accounting. In addition, the Company recorded a charge of \$0.7 million to straight-line revenue primarily related to write-offs associated with cash-basis tenants. Both amounts primarily were triggered by the impacts of the COVID-19 pandemic.
- RVI continues to work with tenants to maximize their ability to provide goods and services to customers in
 accordance with phased openings in the municipalities where it operates. Efforts include facilitating curbside and
 online purchase pick-up, utilization of social media platforms, and on-site promotional programs and marketing. Our
 property operations team continues to monitor CDC and local governmental health agencies to ensure property level
 practices are in line with best practices and engage with property level vendors in accordance with its Vendor COVID
 Operating Protocol.

Property Net Operating Income (NOI) Projection

The Company projects, based on the assumptions below, 2021 property level net operating income (NOI) to be as follows:

| Portfolio | NOI Projection |
|------------------|---------------------|
| Continental U.S. | \$38 - \$43 million |
| Puerto Rico | \$46 - \$53 million |

These Projections:

- Assume that properties owned by the Company on January 1, 2021 are held through December 31, 2021;
- Reflect payment of property management fees;
- Assume tenant collections at 100% as compared to fourth quarter 2020 rent collections of 95% and 90% for the continental U.S. and Puerto Rico portfolios, respectively and
- Assume no reserve reversals related to 2020 rents.

Because these projections are based on assumptions that are subject to change, including, without limitation, the Company's actual tenant collections, they should not be viewed as guidance.

About RVI

RVI is an independent publicly traded company trading under the ticker symbol "RVI" on the New York Stock Exchange. RVI holds assets in the continental U.S. and Puerto Rico and is managed by one or more subsidiaries of SITE Centers Corp. RVI focuses on realizing value in its business through operations and sales of its assets. Additional information about RVI is available at www.retailvalueinc.com.

Non-GAAP Measures

Funds from Operations ("FFO") is a supplemental non-GAAP financial measure used as a standard in the real estate industry and is a widely accepted measure of real estate investment trust ("REIT") performance. Management believes that both FFO and Operating FFO provide additional indicators of the financial performance of a REIT. The Company also believes that FFO and Operating FFO more appropriately measure the core operations of the Company and provide benchmarks to its peer group.

FFO is generally defined and calculated by the Company as net income (loss) (computed in accordance with generally accepted accounting principles in the United States ("GAAP")) adjusted to exclude (i) gains and losses from disposition of real estate property and related investments, which are presented net of taxes, if any, (ii) impairment charges on real estate property and related investments and (iii) certain non-cash items. These non-cash items principally include real property depreciation and amortization of intangibles. The Company's calculation of FFO is consistent with the definition of FFO provided by NAREIT. The Company calculates Operating FFO by excluding certain non-operating charges and income. Operating FFO is useful to investors as the Company removes non-comparable charges and income to analyze the results of its operations and assess performance of the core operating real estate portfolio. Other real estate companies may calculate FFO and Operating FFO in a different manner.

The Company also uses net operating income ("NOI"), a non-GAAP financial measure, as a supplemental performance measure. NOI is calculated as property revenues less property-related expenses. The Company believes NOI provides useful information to investors regarding the Company's financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level and, when compared across periods, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and disposition activity on an unleveraged basis.

FFO, Operating FFO and NOI do not represent cash generated from operating activities in accordance with GAAP, are not necessarily indicative of cash available to fund cash needs and should not be considered as alternatives to net income computed in accordance with GAAP as indicators of the Company's operating performance or as alternatives to cash flow as a measure of liquidity. Reconciliations of these non-GAAP measures to their most directly comparable GAAP measures are included in this release herein. Reconciliation of 2021 projected NOI to the most directly comparable GAAP financial measure is not provided because the Company is unable to provide such reconciliation without unreasonable effort.

Safe Harbor

RVI considers portions of the information in this press release to be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, with respect to the Company's expectation for future periods. Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved. For this purpose, any statements contained herein that are not historical fact may be deemed to be forward-looking statements. There are a number of important factors that could cause our results to differ materially from those indicated by such forward-looking statements, including, among other factors, the Company's actual property NOI for 2021, which could differ materially from the NOI projections included in this press release; the impact of the COVID-19 pandemic on the Company's ability to manage its properties and finance its operations and on tenants' ability to operate their businesses, generate sales and meet their financial obligations, including the obligation to pay ongoing and deferred rents; our ability to sell assets on commercially reasonable terms; our ability to complete dispositions of assets under contract; property damage, expenses related thereto and other business and economic consequences (including the potential loss of rental revenues) resulting from extreme weather conditions and natural disasters in locations where we own properties, and the ability to estimate accurately the amounts thereof; sufficiency and timing of any insurance recovery payments related to damages from extreme weather conditions and natural disasters; local conditions such as an increase in the supply of, or a reduction in demand for, retail real estate in the area; the impact of e-commerce; dependence on rental income from real property; the loss of, significant downsizing of or bankruptcy of a major tenant and the impact of any such event on rental income from other tenants at our properties; our ability to secure equity or debt financing on commercially acceptable terms or at all; impairment charges; our ability to enter into definitive agreements with regard to our financing arrangements and our ability to satisfy conditions to the completion of these arrangements; changes with respect to the Puerto Rican economy and government; the ability to secure and maintain

management services provided to us, including pursuant to our external management agreement with one or more subsidiaries of SITE Centers; and our ability to maintain our REIT status. For additional factors that could cause the results of the Company to differ materially from those indicated in the forward-looking statements, please refer to the Company's most recent report on Form 10-K. The impacts of the COVID-19 pandemic may also exacerbate the risks described therein, any of which could have a material effect on the Company. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof.

⁽¹⁾ Assumes borrower extension options are exercised.

⁽²⁾ L = LIBOR; as of December 31, 2020 1M LIBOR .14%.

⁽³⁾ Excludes loan fees and unamortized loan costs.

⁽⁴⁾ LIBOR subject to a 3.0% cap.

⁽⁵⁾ As defined in mortgage loan agreement. Reflects December sale of Longhorn Steakhouse pad.

^{(6) \$51.2}M debt paydown primarily due to the disposition of Plaza Palma Real and Longhorn Steakhouse pad.

Notable Accounting and Supplemental Policies

The information contained in the Quarterly Financial Supplement does not purport to disclose all items required by the accounting principles generally accepted in the United States of America ("GAAP") and is unaudited information. The Company's Quarterly Financial Supplement should be read in conjunction with the Company's Form 10-K and Form 10-Q.

Rental Income (Revenues)

- Percentage and overage rents are recognized after the tenants' reported sales have exceeded the applicable sales breakpoint.
- Tenant reimbursements are recognized in the period in which the expenses are incurred.
- Lease termination fees are recognized upon termination of a tenant's lease when the Company has no further obligations under the lease.

Lease Modification Accounting

- Elected not to apply lease modification accounting to lease amendments in which the total amount of rent due under the lease is substantially the same and there has been no increase in the lease term. A majority of the Company's concession amendments within this category provide for the deferral of rental payments to a later date within the remaining lease term.
- If abatements are granted as part of a lease amendment, the Company has elected to not treat the abatements as variable rent and instead will record the concession's impact over the tenant's remaining lease term on a straight-line basis. Modifications to leases that involve an increase in the lease term have been treated as a lease modification.
- For those tenants where the Company is unable to assert that collection of amounts due over the lease term is probable, regardless if the Company has entered into a deferral agreement to extend the payment terms, the Company has categorized these tenants on the cash basis of accounting. As a result, no rental income is recognized from such tenants once they have been placed on the cash basis of accounting until payments are received and all existing accounts receivable relating to these tenants have been reserved in full, including straight-line rental income. The Company will remove the cash basis designation and resume recording rental income from such tenants during the period earned at such time it believes collection from the tenants is probable based upon a demonstrated payment history or recapitalization event.

Deferred Financing Costs

• Costs incurred in obtaining term financing are included as a reduction of the related debt liability and costs incurred related to the revolving credit facilities are included in other assets on the consolidated balance sheets. All costs are amortized on a straight-line basis over the term of the related debt agreement; such amortization is reflected as interest expense in the consolidated income statements.

Real Estate

- Real estate assets are stated at cost less accumulated depreciation, which, in the opinion of management, is not
 in excess of the individual property's estimated undiscounted future cash flows, including estimated proceeds
 from disposition.
- Construction in progress includes expansions and re-tenanting.
- Depreciation and amortization are provided on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings 20 to 31.5 years
Building Improvements 3 to 20 years
Furniture/Fixtures/ Shorter of economic life or lease terms

Tenant Improvements

Notable Accounting and Supplemental Policies

Capitalization

- Expenditures for maintenance and repairs are charged to operations as incurred. Renovations and expenditures that improve or extend the life of the asset are capitalized.
- The Company capitalizes interest on funds used for the construction or expansion of shopping centers. Capitalization of interest ceases when construction activities are completed and the property is available for occupancy by tenants.
- Interest expense incurred during construction is capitalized and depreciated over the building life.

Non-GAAP Measures

FFO and Operating FFO

The Company believes that Funds from Operations ("FFO") and Operating FFO, both non-GAAP financial measures, provide additional and useful means to assess the financial performance of REITs. FFO and Operating FFO are frequently used by the real estate industry, as well as securities analysts, investors and other interested parties, to evaluate the performance of REITs. The Company also believes that FFO and Operating FFO more appropriately measure the core operations of the Company and provide benchmarks to its peer group

FFO excludes GAAP historical cost depreciation and amortization of real estate and real estate investments, which assume that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions, and many companies use different depreciable lives and methods. Because FFO excludes depreciation and amortization unique to real estate and gains and losses from depreciable property dispositions, it can provide a performance measure that, when compared year over year, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, interest costs and acquisition, disposition and development activities. This provides a perspective of the Company's financial performance not immediately apparent from net income determined in accordance with GAAP.

FFO is generally defined and calculated by the Company as net income (loss) (computed in accordance with GAAP), adjusted to exclude (i) gains and losses from disposition of real estate property and related investments, which are presented net of taxes, if any, (ii) impairment charges on real estate property and related investments and (iii) certain non-cash items. These non-cash items principally include real property depreciation and amortization of intangibles. The Company's calculation of FFO is consistent with the definition of FFO provided by NAREIT.

The Company believes that certain charges and income recorded in its operating results are not comparable or reflective of its core operating performance. Operating FFO is useful to investors as the Company removes non-comparable charges, income and gains to analyze the results of its operations and assess performance of the core operating real estate portfolio. As a result, the Company also computes Operating FFO and discusses it with the users of its financial statements, in addition to other measures such as net income (loss) determined in accordance with GAAP and FFO. Operating FFO is generally defined and calculated by the Company as FFO excluding certain charges and income that management believes are not comparable and indicative of the results of the Company's operating real estate portfolio. Such adjustments include gains/losses on the early extinguishment of debt, net hurricane-related activity and transaction costs. The disclosure of these adjustments is regularly requested by users of the Company's financial statements.

The adjustment for these charges and income may not be comparable to how other REITs or real estate companies calculate their results of operations, and the Company's calculation of Operating FFO differs from NAREIT's definition of FFO. Additionally, the Company provides no assurances that these charges and income are non-recurring. These charges and income could be reasonably expected to recur in future results of operations.

These measures of performance are used by the Company for several business purposes and by other REITs. The Company uses FFO and/or Operating FFO in part (i) as a disclosure to improve the understanding of the Company's operating results among the investing public, (ii) as a measure of a real estate asset's performance and (iii) to compare the Company's performance to that of other publicly traded shopping center REITs. For the reasons described above, management believes that FFO and Operating FFO provide the Company and investors with an important indicator of the Company's operating performance. They provide recognized measures of performance other than GAAP net income, which may include non-cash items (often significant). Other real estate companies may calculate FFO and Operating FFO in a different manner.

Non-GAAP Measures

Management recognizes the limitations of FFO and Operating FFO when compared to GAAP's net income. FFO and Operating FFO do not represent amounts available for dividends, capital replacement or expansion, debt service obligations or other commitments and uncertainties. Management does not use FFO or Operating FFO as an indicator of the Company's cash obligations and funding requirements for future commitments, acquisitions or development activities. Neither FFO nor Operating FFO represents cash generated from operating activities in accordance with GAAP, and neither is necessarily indicative of cash available to fund cash needs. Neither FFO nor Operating FFO should be considered an alternative to net income (computed in accordance with GAAP) or as an alternative to cash flow as a measure of liquidity. FFO and Operating FFO are simply used as additional indicators of the Company's operating performance. The Company believes that to further understand its performance, FFO and Operating FFO should be compared with the Company's reported net income (loss) and considered in addition to cash flows determined in accordance with GAAP, as presented in its condensed consolidated financial statements. Reconciliations of these measures to their most directly comparable GAAP measure of net income (loss) have been provided herein.

Net Operating Income ("NOI")

The Company uses NOI, which is a non-GAAP financial measure, as a supplemental performance measure. NOI is calculated as property revenues less property-related expenses. The Company believes NOI provides useful information to investors regarding the Company's financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level and, when compared across periods, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and disposition activity on an unleveraged basis.
