BAM FOUNDATION

Be A Mushroom Foundation (BAM) is a 501(c)(3) Non-Profit organization that focuses on empowering youth, adult learners, and families with life skills that support financial stability, confidence, and long-term success. Our programs combine practical financial education with mentorship, community connection, and real-world experiences. Through our Road to Riches program, powered by Money Vehicle, participants learn the foundations of smart money management using easy, web-based tools offered in English and Spanish. We create a supportive environment where learning, belonging, and opportunity come together to help every participant grow.

We're excited to introduce the BAM - Mentor a Morel Program, designed to give youth and young adults real-world exposure to careers and opportunities.

A Morel is a rare and highly sought-after mushroom — it grows strong through challenging environments. The name represents our participants: unique, resilient, valuable, and rising with potential.

In our mentorship program, Morels learn about mindset, education pathways, training, certifications, and the actions needed to turn goals into reality. Each cohort is paired with hands-on industry exploration days at local businesses, where Morels meet key players and see how industries operate. Mentors guide every visit, creating context, inspiration, and relevance.

COMMUNITY IMPACT

Our car shows, markets, and family events create spaces where the community can connect, celebrate, and support a shared mission. These events raise awareness and generate resources that go straight back into helping youth grow.

Every dollar we raise stays in our programs, directly supporting:

Scholarships for participants.

Mentoring and career exploration.

Access to educational software and tools.

Field trips, transportation, and real-world learning.

Training, certifications, and leadership development.

Community outreach and family support.

These moments of connection bring local families, business owners, city partners, and car enthusiasts together in a way that is memorable, inspiring, and rooted in purpose.

When our community shows up, our youth rise.

Join us, volunteer, host a booth, sponsor, or simply come have fun—your presence makes a difference.
