28. Communicable Disease Control FDCH/LFCCH Handbook, Section 7.23

Compliance

Compliance Comments

REMINDER: There are three common modes of transmission for the spread of microorganisms in child care settings: contact, droplet, and airborne. Many common infections encountered in the child care setting are transmitted by direct or indirect contact. Child care facilities shall develop a written exposure plan regarding universal safety precautions, recommended by the Centers for Disease Control and Prevention (CDC), to follow in the event there is exposure to blood and potentially infectious fluids. **Personnel are required to be educated on the facility's exposure plan regarding standard precautions before beginning to work and annually thereafter.** Written documentation that child care personnel have participated in the facility's annual refresher education for the exposure plan and understand the proper procedures in the event there is exposure to blood, and potentially infectious fluids must be retained for 12 months and be available for licensing to review.
