

## The Mission of C2Eventz

C2Eventz integrates revolutionary global transportation technology in many markets. We are committed to replacing obsolete industry methods with global transportation software for planners, executive admins, tour companies and DMC's. C2Eventz optimizes efficiency utilizing proprietary internal & client passenger applications to ease tracking & billing. Connecting and partnering with industry leaders, we collaborate and enhance new technological ideas with industry peers.

**As your software provider, we know you depend on us to help run your business. Your success is ours, so we've built tools to boost your business processes.**

## Live Manifests

Provide clients with a “Live” manifest link to establish movements are being passed along. Clients manage their own manifests to ensure updates are being completed.

## Programs & Events

Clients with multiple programs and planners, control and oversight is the key. Organized billing structure to provide accurate and efficient operations.

## V.I.P

VIP movements: Clients are able to follow along with flights and driver locations. Optional text to planners and passengers for peace of mind and accuracy.

## Connection

Welcome text to arriving passengers or if a flight change, info goes directly to one number. Safety and success is our goal combined with easy transportation transition.
