## Goman Laser cannon specification

September 2024

| Item                  | L500          | L1000       |
|-----------------------|---------------|-------------|
| Laser power [W]       | 500+50        | 1000+50     |
| Power range           | 20-100%       | 20-100%     |
| Size [mm]             | 610*440*326   | 630*490*312 |
| Weight                | 24.5kgs/54lbs | 39kgs/86lbs |
| Wavelength [mm]       | 1080          |             |
| Humidity [%]          | 10-90%        |             |
| Working temperature   | -20- 40       |             |
| Cooling system        | Air cooling   |             |
| Fiber length [cm]     | 270           | 300         |
| Working distance [m]  | 300           | 400         |
| Battery specification | 48V 55Ah      | 48V 83Ah    |
| Working hours [H]     | 2             | 1.2         |
| Battery weight [kg]   | 12.6          | 20          |
| Power consumption [W] | 1600          | 3300        |
