

Curriculum Overview

Block: Jan-April 2025

Class: P7

Teacher: Mrs E Murray

Literacy and English

We are learning to...

- Explore various types of poetry by reading them aloud and discussing their meaning.
- Create our own poems, focussing on the style and format of poems we have explored.
- Create works of fiction using different prompts and inspiration.
- Use expanded phrases to describe.
- Understand and be able to use figurative language in both poetry and fiction.
- Use language and style to engage our readers.
- Use our reading skills to understand and discuss short films.

Science and Social Studies

Science – Classification and Ecosystems (Trout in the Classroom)

We are learning to...

- Classify living things into groups through knowledge of their characteristics.
- Understand about adaptations living things can make and how they can evolve over time.
- Understand the flow of energy between plants and animals and begin to appreciate the interdependence present in ecosystems.

Social Studies – Natural Disasters

We are learning to...

- Know the different types of natural disaster
- Understand the positive and negative impact a natural disaster may have on people and the landscape.
- Understand the environmental impact of human activity.
- Know ways we can live in a more environmentally responsible way.

Numeracy and Maths

We are learning to...

Division

- Divide both integers and decimals.
- Solve problems involving multiplication and division.
- Investigate multiples, factors and prime numbers.

Fractions, Decimals

- Understand what a fraction is and be able to work out the fraction of an amount.
- Be able to match simple equivalent fractions.

Health and Wellbeing

We are learning to...

- Use different strategies to self-regulate our different emotions.
- Reflect on our behaviours and mindsets, identifying what we could work to improve in preparation for the P7 residential.

PE (Mondays and Tuesdays)

We are learning to...

- Develop our ball skills and our ability to play in a team as we play basketball and football.
- Develop a 'good sporting attitude' as we represent our school in various tournaments and competitions.

Measure <ul style="list-style-type: none"> Understand what the perimeter is and be able to calculate it in a variety of shapes. Understand what the area is and be able to calculate the area of simple shapes. Understand how we can work out the volume of an object and the different units of measurement we can use for this. 	
Expressive Arts	Technologies
 <p>In Art we are learning to...</p> <ul style="list-style-type: none"> Collaborate in order to design and create themed wall displays and build models. 	 <p>We are learning to...</p> <ul style="list-style-type: none"> Develop our model making skills as we explore using different tools to design and shape different materials. Consider how design can be used to shape landscapes and build communities. Consider how design can be used in a sustainable way.
Modern Languages We are learning to... <ul style="list-style-type: none"> Develop our understanding of the Deaf Community. Know and use some BSL signs to enable us to ask and answer questions. 	RME We are learning to... <ul style="list-style-type: none"> Discuss important aspects of Islamic practices, traditions, celebrations and festivals with respect and relate them to our own beliefs and experiences.
<p>How to Support Your Child's Learning at Home: We are already into another very busy term! There are various sporting competitions coming up in which the pupils have the opportunity to represent the school and, hopefully, bring home the silver! There is also the Rotary Quiz which is an opportunity to test our brains against the other primary schools in the learning community. The P7 residential will be later in the term, more information will follow soon!</p> <p>Please do support your child in ensuring they bring a full PE kit to change into on PE days. We continue to discuss the importance of hygiene, especially as they approach the end of P7.</p> <p>Please do also encourage your P7s to bring their iPads updated and fully charged to school. It can be so disruptive to learning if they do not come to school with the things they need.</p> <p>If there is anything you feel we should know, please do get in touch. My email is: gw13murrayelaine@glow.sch.uk (Please continue to let the office know about absences and appointments)</p>
