Belt & Road AI Technology Study Tour

Guangdong AI Technology Study and Research Visit Camp
for Government Officials from Belt & Road Countries

A benchmark project for the pilot demonstration zone of science and technology cooperation under the Belt and Road Initiative. From hard connectivity to soft connectivity to people-to-people connectivity.

DURATION

**7 Days / 6
Nights**

GROUP SIZE

**20-40
Officials**

ENTERPRISES

10 Leaders

CITIES

**Guangzhou
&
Shenzhen**

STRATEGIC POSITIONING

Program Background & Strategic Significance

Macro Context: The New Era of China-Africa / China-ASEAN Cooperation

At the September 2024 FOCAC Beijing Summit, China elevated bilateral relations with multiple African countries to comprehensive strategic partnerships. President Xi announced the "Ten Partnership Actions" covering trade, industrial chain cooperation, connectivity, health, agriculture, and green development. The Belt and Road Initiative has entered its second decade with cooperation documents signed with **150+ countries and 30+ international organizations**. China-Africa trade exceeded **\$300 billion USD** in 2024.

Strategic Logic: From Hard to Soft to People-to-People Connectivity

DIMENSION	PAST FOUNDATION	THIS PROJECT'S FOCUS
Infrastructure	Lekki Port, Mombasa-Nairobi Railway, Addis-Djibouti Railway completed	Building on benchmarks
Trade	China Africa's largest trading partner for 15 consecutive years	Deepening engagement
Finance	Silk Road Fund, AIIB, China Development Bank loans advancing	Supporting ecosystem
Technology	Relatively weak	This project fills the gap
People-to-People	Needs strengthening	This project drives breakthroughs

Three Strategic Objectives

Technology Empowerment

Precisely align the advantages of China's AI industry with the digital transformation needs of Belt and Road countries. Showcase how AI can accelerate national development agendas.

Talent Cultivation

Provide government officials with cutting-edge technology knowledge and enhance their digital governance capabilities. Build human capital for the digital era.

Demonstration & Leadership

Create a replicable, scalable benchmark project for the pilot demonstration zone of scientific and

Diplomatic Excellence

Ministerial-level government delegation reception standards throughout. National anthem

10 ENTERPRISES & INSTITUTIONS

Core Visit Matrix

#	ENTERPRISE	LOCATION	KEY HIGHLIGHTS
1	XPENG Motors	Guangzhou	Flying cars, intelligent mobility, Iron Robot display
2	Nansha Planning Exhibition Hall	Nansha	"Heart of the Bay Area" strategic plan
3	Pony.ai	Guangzhou	L4-level driverless test ride experience
4	iFlytek	Shenzhen	Speech & audio AI, AI simultaneous interpretation, Xinghuo LLM
5	Baidu Apollo Go	Shenzhen	World's largest autonomous driving ride-hailing platform
6	UBTECH Robotics	Shenzhen	Humanoid robots, embodied intelligence
7	Shenzhen Inst. of SciTech Innovation	Shenzhen	New model of innovation education and entrepreneurship incubation
8	DJI	Shenzhen	Global drone leader, imaging technology
9	Huawei	Dongguan	ICT and AI infrastructure, Songshan Lake European Town
10	Tencent	Shenzhen	Internet technology ecosystem, AI large model

PROGRAM BASICS

Program Name

Guangdong AI Technology Study and Visit Camp for Government Officials from Belt and Road Countries

Positioning

A benchmark project for the pilot demonstration zone of science and technology cooperation under the Belt and Road Initiative

Languages

Chinese / English with simultaneous interpretation provided throughout the entire program. All materials bilingual.

Locations

Guangzhou (Days 1-2), Shenzhen (Days 3-5), Dameisha/Xiaomeisha Seaside (Days 4-6)

7-DAY JOURNEY

Detailed Itinerary · Days 1-3

DAY 1

Guangzhou

VIP Arrival & Grand Opening Ceremony
