# February, 2024 Monthly Match Report MidSouth F-Class

### **Match Summary**

Twenty two competitors gathered Saturday for the first monthly match of the year. It was a windy day with temps in the low 50's and North winds gusting to 21 mph. Sometimes the wind also decided to come from the West and sometimes from the East. When these switches came, you could hear the colorful comments up and down the line with some 8's, 7's or even an occasional 6. No one was particularly proud of their final scores, but we know they were **ALL** well earned! Unusual was the weather in that the wind began to settle down a little later in the morning and scores improved somewhat. Not a single clean target however, which tells you everything you need to know.

#### What's New?

**New Wind Flags!** Sorely needed too and just in time! Thank you Robbie Miles and the Club staff for getting this done. **A couple new knees!** Don and Jonny may be getting some new hardware sometime this year and we all need to pitch in with the heavy lifting. Until further notice, all competitors are required to go down range to set up the ShotMarker E- Targets and target frames and again at the conclusion of the match, all competitors are required to go down range to take down and pack up the target frames and ShotMarkers. This will avoid some of the confusion on whose going down range and will make the work easier for all. If you can't physically perform these functions, let Jonny know. **New Competitor!** Todd Edwards brought his 6GT and shot in the FPR class for the first time at 600. As a bonus he got his HP600 qualification. Welcome Todd if you see him.

#### **Next Month!**

Next month's match is scheduled March 23 so tell your fellow shooters. There has been some discussions about holding an informal wind class or two. If you have an interest, let Don Swindoll know and we will try to get something on the schedule.
