ABOUT OUR PRODUCT

Microgreens are young, nutrient-rich shoots harvested just days after sprouting. They contain up to 40× more vitamins, minerals, and antioxidants than mature plants.

Using freeze drying, the moisture is gently removed, while preserving upto 98% of the nutrition, leaving us with – Ultra Potent plant based Nutrition powders that are Easily absorbed by the body and are rich in compounds that support immunity, reduce inflammation and promote cellular health.

Just a spoonful a day can turn everyday meals into functional wellness tools.

At **The Nutrition Initiative**, we craft these blends to make healing through food simple, effective, and natural.
