

INNOVATION IN ROTARY AIRERS

Instructions

Looking after your SyDri Standard Airer, its recommended you close your Airer after use.

Closing your SyDri Standard Airer

How to close your SyDri Standard Airer from a fully opened position.

Bottom Hub

With the one hand support the **Bottom Hub**.

With the other hand locate the **Ratchet Pulley** fitted to the Middle Hub. Using your thumb push the **Catch** on the **Ratchet Pulley** upwards until the pulley cord is released and allowed to slip through the pulley system.

Ratchet Pulley Catch

Ratchet Pulley

*To release the cord
Push upwards on the Catch*

Keeping your thumb pushed on the **Ratchet Pulley Catch**, allow the **Bottom Hub** to slide down the central pole until your SyDri Standard Airer is in a closed position.

Ready to use for another day.
