

Pediatric Center of Round Rock

Caring for the future by taking care of the present

Notice to Patients Regarding Nurse Practitioner

Pediatric Center of Round Rock is focused on your child and providing prompt care for any issues that may arise. We have Nurse Practitioners in our practice to help the Physician see patients more efficiently.

When you call for an appointment, the front desk staff will give you an option to see the Nurse Practitioner who may have a more open schedule than the physician. Our Nurse Practitioners are experienced in pediatrics and able to manage all aspects of pediatric care.

It is always your option to see a physician. If you request to see a physician, the staff will schedule you with the next available opening at your request.

Please sign below to document that you understand the practice policy on utilizing Nurse Practitioners as part of our provider staff.
