Service Requested:	Constituent requests for assistance with improvements at Makaha Beach Park:		

Trim the Hau bushes near bridge 2. Lack of visibility is creating an increase in crime and car break ins.

Increase trash bins (reduce the amount of trash flying into the ocean)

Repair of all showerheads (no pressure)

One can of traffic yellow paint (to paint small poles, tripping hazard would be something done of the day of cleanup)

Rehabilitation and restriping of the parking lot

Removal of broken parking wheel stops in the parking lot (rebar hazard)

Replace the missing parking signs and handicap signs to include the missing poles for the signs.

Removal of broken concrete benches in the parking lot under the tree

Toilet paper rolls are empty before 10am as if it's not being replaced the cardboard not even on there kupunas couldn't use the restroom.

Approved

PARKS AND RECREATION	04/28/2021	The Department of Parks and Recreation has been working on improvements at Makaha Beach Park. Our Maintenance Supervisors and Staff have made necessary repairs which included the repair of shower fixtures, parking stops, and removal of debris. We have requested the parking lot to be restriped and surrounding area has been cleaned and will be monitored. Replacement trash cans are unavailable at this time, additional cans will be added once they become available, we are hopeful to add more by the middle of May. Our park restrooms are cleaned and replenished twice a day, staff will monitor for additional cleanings.
