

EXPERIENCE THE FEELING OF FLYING ON WATER

Aqua Glider E-Foil GET ON BOARD

E-foiling is a new and fast-growing water activity, redefining the future of modern watersports across the globe.

Aqua Glider is nearly silent and has no harmful emissions or destructive wakes. It uses an electric battery which allows you to enjoy your tranquil water environment without imposing on it.

Battery Operated

Long distance battery with up to 120 minutes of runtime. Fully charged in less than 3 hours.

Light & Rugged

Carbon Fiber, strongest material in the industry, provides strength without a lot of weight.

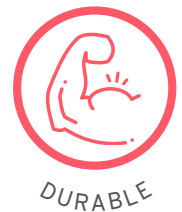

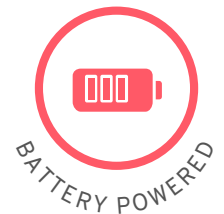

Easy to Use

Safe for many ages as a versatile water activity for the whole family.

SPECIFICATIONS

Rated power:	8000W
Peak speed:	28 MPH
Running time:	2 Hours
Material:	Carbon Fiber
Board weight:	70 lbs with foil
Max load:	265 lbs
Remote Control:	Wireless remote controller
Foil size:	Fuselage length: 28.35 in Front wing length: 31.5 in
Board size:	66.14 in * 25.56 in * 4.72 in
Battery material:	Lithium Battery
Charge time:	3 hours for battery
Battery life:	1,000 charge-discharge cycles
Battery capacity:	48V 50Ah
Battery weight:	28.66 lbs
Battery size:	14.97 in * 13.78 in * 3.94 in
Certification:	CE/IP68/MSDS/UN38.3
Warranty policy:	Power system guaranteed for 12 months and battery for 9 months.
