

MV Express Surveyor

- Windfarm and renewable energy survey
- Metocean and environmental services
- Hydrographic shallow multibeam surveys
- Nearshore cable route
- Nearshore pipeline route
- Harbour surveys
- Inland waterways surveys

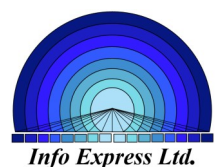

The MV Express Surveyor is purposed as a nearshore survey operations vessel. The vessel is maintained in a “ready to roll” condition and so the time between initial enquiry and delivered, in water, on location can be as little as 24 hours, launch slipway location depending.

The vessel is MCA coded for its intended work area and comes with a level of navigation instrumentation and safety equipment more often found on much larger and expensive vessels.

The vessel can be supplied with a variety of survey tools such as sidescan, swathe sonars and magnetometers.

The MV Express Surveyor is also ideal for metocean and seabed sampling work, as well camera and other tasks

GENERAL SPECIFICATIONS

Vessel Identification

Vessel name	MV Surveyor
Type	Survey workboat
Built	2015
Certification	MCA Category 4 (Up to 20 miles from safe haven, daylight only and in

Dimensions

Length Overall	6.95 m
Beam	2.30 m
Draft	0.45 m
Height on trailer / Towing weight c/w trailer	3.66 m / 3,400 Kg
Gross Tonnage	2630 Kgs (c/w 200Ltr fuel)
Cruising Speed	12 Kts

Technical

Engine	Twin Yamaha F70AETX
Thruster	
Propeller	
Fuel Capacity	Twin 1001 Fuel Tanks
Endurance	

Other Equipment

8hp Water cooled Kubota 24v Generator
GPS, Radar, AIS, Twin VHF, Autopilot, Side Scan, Down Vision, Suspension Seating
Seastar Hydraulic Steering

Accommodation

Hot water heater
Microwave
