

WSOG 2025 Best Ball Rules

1. Pace of play is VERY important. Get to your ball, line up the shot, and hit the ball, use the carts smartly to move the team up the fairways.
2. Every player plays their own ball and keeps their own score. After each hole, report your handicap adjusted score to the captain.
3. The team captain will record the actual score from each team member on the official WSOG score card.
4. The captain will then determine the best score for the team and record that at the bottom of the scorecard in the **yellow** line.
5. Each player will tee off from the tee box designated on the scorecard.
6. If you have a 3-Person team you will receive (6) total mulligans for your team to be used by any person on the team. The only restriction is that you cannot have the same person use more than 1 mulligan per hole. The only exception to this rule is, if all of the teams are 3-person teams then **NO** mulligans will be granted.
7. On the Air Cannon event, when you arrive at the green you are lying 1, shooting 2. Strokes do apply to this hole per player as usual. Mulligans can be used as well, if you are a 3-person team.
