The D3 Live Unit is a cutting-edge, cloud-based security system. It provides a turn-key mobile solution for perimeter detection, deterrence, and alert-based monitoring. It is completely portable and is easy to deploy, relocate, or remove because it does not require hardwired connections. Instead, The D3 Live Unit combines solar power and batteries with cellular connectivity and proprietary software to protect your property. Long range detection allows for human detection across a 1,100 foot corridor per camera (2,200 foot total).
