BLUFF MOUNTAIN
REALTY INC

"MOST SCIENTIFICALLY STUDIED RELIC IN HISTORY!"

SHROUD MUSEUM

THE BURIAL CLOTH OF JESUS

IN THE HEART OF PIGEON FORGE IS THE SHROUD MUSEUM WHERE HISTORY, SCIENCE AND FAITH MEET.

The cloth (Shroud) that was used for the burial of Jesus Christ is believed to be found and is in Turin, Italy. Science and history has authenticated the finding. At the Shroud Museum in Pigeon Forge you'll see a full-size replica of the Shroud of Turin used at the burial of Jesus. The linen is 14 feet long and 3.5 feet wide that bares the

front and back image of the crucified body of a man believed to be that of Jesus. Millions of people the world over believe it to be the actual burial cloth of Jesus Christ. If you go to Italy you won't see the real shroud. You'll see exactly what is in Pigeon Forge at the Shroud Museum. The original is rarely displayed. The real cloth's authenticity has been debated for centuries. It's likely Christendom's most studied — and controversial — artifact.

The replica shows the blood stains, spear wounds and facial contusions. A surgeon who visited the museum said he could see the carpal bones in the hand.

The Shroud Museum includes a reconstructed rock-cut tomb like the one Joseph of Arimathea loaned for Christ's burial. Visitors who step in this space can experience the third day at the empty tomb. Photos

WHERE HISTORY, SCIENCE & FAITH MEET

of the Shroud show enlarged images of the patches that were carbon dated and tested by researchers.

The Museum is 1,800 square feet consist of photographs and panels listing historic dates and research. Visitors will see artifacts describing Roman crucifixions. Displays also include actual first-century crucifixion nails and a third-century Roman spear found in archaeological digs in Italy or Palestine.

The Shroud Museum is the most unique museum in the Smokies in which History, Science and Faith meets.
