

Dear Friends,

I pray the New Year is going well for all of you so far. Thanks to everyone for creating an awesome worship experience on Baptism of the Lord Sunday! The Holy Spirit energy was just tremendous! Special thanks to our musicians and altar artists! Fantastic morning all around!

Just a quick reminder about our COVID protocols at Trinity: According to recent data released by the Florida Department of Health, we are currently going through a continuing rise of cases Statewide, with over a thousand cases reported in both Martin and St. Lucie counties in the past week. I have been in touch with our Church Council and the consensus on safeguards in Worship appears to be the following:

- If you are feeling at all unwell, please worship with us online. We look forward to being with you again once you are healthy!
- We will rope off every other pew for the time being.
- Please maintain some distance between yourselves and others in the pews.
- Continue to practice no-touch greetings.
- Masks remain optional, but during this infectious period, highly encouraged. I am heartened to see more people wearing masks in worship on their own. Thank you!

I pray this wave will drop soon, and that all our neighbors remain largely unscathed. This is a trying time for so many! Pray for our nation to heal! And thank you all for your continued cooperation, patience and grace as we care for one another with these simple measures. Let's set our sights on making this a healthy new year for all!

Christ's Peace be with You,
Anil
