We are featuring our Harvest Partner **Sierra Leone**.

The church in Sierra Leone is on fire, reaching out communities where our churches are located and in new fields with the great commission of Jesus Christ as recorded in Matthew 28:18-29.

We do operate ten (10) churches of which most of them are under constructions, due to schools that are ongoing in the same building and thirty eight (38) schools recognise by the Government.

School fees are not paid, as the Government declare free education for elementary, junior and senior schools with subsidies coming from the state to assist the day to day running of the schools and do pays teachers monthly. For over year's now, the subsidy has been a challenge as it has not been forth coming on time and recently, it takes a whole academic year. The church has to battle with schools administration to make sure teaching aids are in some of our schools.

We are presently trusting God to help schools with supplies such as books, pencils, pen, chalk, school records and blackboards. Where provisions are available do benches and desk, repairs on roofs and provides additional classroom.

Our National Office structure is also in construction. Any area of assistant is a blessing to our work in Sierra Leone.

Blessings

Bishop Issa Lamin Bangura
